Materials & Logistics Management Dr. Prashant S. Kadu I Dr. Mukul Burghate, Materials management is a core

function of supply chain management involving the planning and execution of supply chains to meet the material requirements of a company or organisation. These requirements include controlling and regulating the flow of material while simultaneously assessing variables like demand, price, availability, quality, and delivery schedules. Material managers determine the amount of material required and held in stock, plan for the replenishment of these stocks, create inventory levels for each type of item (raw material, work in progress, or finished goods), and communicate information and requirements to procurement operations and the extended supply chain. Materials management also involves assessing material quality to make sure it meets customer demands in line with a production schedule and at the lowest cost. The purpose of this study material is to present an introduction to the subjects of MBA. The book contains the syllabus from basics of the subjects going into the intricacies of the subjects. All the concepts have been explained with relevant examples and diagrams to make it interesting for the readers. An attempt is made here by the author to assist the students by way of providing Study Material as per the curriculum. However, it is implicit that these are exam-oriented Study Material and students are advised to attend regular class room classes in the Institute and utilize reference books available in the library for in-depth knowledge. We owe to many websites and their free contents; we would like to specially acknowledge contents of website www.wikipedia.com and various authors whose writings formed the basis for this book. We acknowledge our thanks to them. At the end, we would like to say that there is always a room for improvement in whatever we do. We would appreciate any suggestions regarding this study material from the readers so that the contents can be made more interesting and meaningful.

Empirical entrepreneurship in Europe Michael Joseph Dowling, J_rgen Schmude, 2007-01-01. Brings together contributors from different disciplinary backgrounds within the business field to employ various methodologies to study the phenomenon of entrepreneurship. Presenting empirical research on myriad entrepreneurship topics in Europe, this volume is intended for those who have a specific interest in entrepreneurship.

Strategic Management in the Arts Lidia Varbanova, 2013-01-03. Strategic Management in the Arts looks at the unique characteristics of organisations in the arts and culture sector and shows readers how to tailor a strategic plan to help these diverse organizations meet their objectives. Strategic management is an essential element that drives an organisation's success, yet many cultural organizations have yet to apply strategic thinking and entrepreneurial actions within the management function. Varbanova reviews the existing theories and models of strategic management and then relates these specifically to cultural organisations. Also included are sections on entrepreneurship and innovations in the arts, considering the concept of a learning organisation (an organisation able to adapt its strategy within a constantly changing complex environment). The book is structured to walk the reader through each element of the strategic plan systematically. With a fresh approach, key questions, examples, international cases, to connect theory with practice and suggestions for further reading, this book is designed to accompany classes on strategic planning, cultural management, or arts management.

African Immigrant Traders in Inner City Johannesburg Innocent

Moyo,2017-09-14 This book contests the negative portrayal of African immigrants as people who are not valuable members of South African society They are often perceived as a threat to South Africa and its patrimony accused of committing crime taking jobs and competing for resources with South African citizens Unique in its deployment of a deconstructionist theoretical and analytical framework this work argues that this is a simplistic portrayal of a complex reality Inocent Moyo lays bare not only the failings of an exclusivist narrative of belonging but also a complex social reality around migration and immigration politics belonging and exclusion in contemporary South Africa Over seven chapters he introduces new perspectives on the negative portrayal of African immigrants and argues that to sustain a negative view of them as the threatening other ignores complex people place space dynamics For these reasons the analytical empirical and theoretical value of the project is that it broadens the study of migration related contexts in a South African setting Academics students policy makers and activists focusing on the migration and immigration debate will find this book invaluable
