Fine Art Printing for Photographers Uwe Steinmueller, Juergen Gulbins, 2010-12-21 Today's digital cameras provide image data files allowing large format output at high resolution. At the same time printing technology has moved forward at an equally fast pace bringing us new inkjet systems capable of printing in high precision at a very fine resolution providing an amazing tonality range and longtime stability of inks. Moreover these systems are now affordable to the serious photographer. In the hands of knowledgeable and experienced photographers these new inkjet printers can help create prints comparable to the highest quality darkroom prints on photographic paper. This book provides the necessary foundation for fine art printing. The understanding of color management, profiling paper and inks. It demonstrates how to set up the printing workflow as it guides the reader step by step through this process from an image file to an outstanding fine art print. **The Art of Fine Art Printing** Uwe Steinmueller, Jürgen Gulbins, 2006-03 HWM, 2005-12 Singapore's leading tech magazine gives its readers the power to decide with its informative articles and in depth reviews. **Popular Photography**, 2008-01

The Paper Boomerang Book Mark Latno, 2010-06-01 When it comes to lightweight avionics there's no beating a paper boomerang. Let all the others chase after their dull folded airplanes; you can now build a flying device that comes right back to you every time. And unlike expensive heavy wooden boomerangs you won't endanger windows and skulls with paper boomerangs. The Paper Boomerang Book is the first of its kind: guide to this fascinating toy. Expert Mark Latno not only tells you how to build perfect and troubleshoot your paper boomerang but about the 20 000 year history of the device including Egyptian throwing sticks found in pharaoh's tombs and the physics behind their circuitous flights. And once you've mastered the basic throw, return and catch it's on to more impressive tricks: the Behind the Back Toss, the Boomerang Juggle, the Under the Leg Catch and the dreaded Double Handed Backward Double Boomerang Throw. For those who don't have the luxury of the wide open outback on a clear Australian day, author Latno includes plans for Little Dragons miniature versions of the paper boomerang that can be used indoors in almost any sized room, rain or shine.
