Resources in Education ,1996-10 **Research in Education** ,1974 **English Language Arts in American High Schools** Arno Joseph Jewett,1959 Learning to Teach English and the Language Arts Peter Smagorinsky,2020-04-16
Drawing together Smagorinsky's extensive research over a 20 year period Learning to Teach English and the Language Arts explores how beginning teachers' pedagogical concepts are shaped by a variety of influences. Challenging popular thinking about the binary roles of teacher education programs and school based experiences in the process of learning to teach, Smagorinsky illustrates through case studies in the disciplines of English and the Language Arts that teacher education programs and classroom school contexts are not discrete contexts for learning about teaching nor are each of these contexts unified in the messages they offer about teaching. He explores the tensions not only between these contexts and others but within them to illustrate the social, cultural, contextual, political, and historical complexity of learning to teach. Smagorinsky revisits familiar theoretical understandings including Vygotsky's concept development and Lortie's apprenticeship of observation to consider their implications for teachers today and to examine what teacher candidates learn during their teacher education experiences and how that learning shapes their development as teachers. The third edition reaffirms the value of a holistic integrated approach to teaching English language arts. While separating the language arts into separate chapters the strands are reconnected in every chapter. A separate chapter is devoted to grammar giving this component focused attention. Materials and instructional strategies for students with increased diversity and needs are offered in greater detail.
