

THE THREE DIMENSIONS

The world of Minecraft is split into three realms: the Overworld, the Nether and the End. Each realm has its own unique biomes, resources and native mobs – both friendly and alarmingly hostile. Facing a fourth of interdimensional travel? Well, it's best to know what's in store before you start realm-hopping.

THE OVERWORLD

This is the default Minecraft world, where players can spend many a day quite happily without even a thought for another dimension. This realm is the most diverse and has the widest variety of different biomes and mobs, including friendly villagers and evil zombies.

Blumen:

Check out The World of Minecraft, Blumen on p.10-11.

THE NETHER

The Nether is a dangerous hellscape filled with lava seas, fire and a lot of dangerous mobs that prefer the taste of you to the fungal vegetation on offer. Players have to create a nether portal out of obsidian in the Overworld in order to reach the Nether.

Blumen:

Creeping Forest, Infested Forest, Nether Maze, Nether Combat, Soul Stone Village

THE END

The End is a space-like dimension made up of floating and stone islands. This barren environment might not look like much, but it is home to some of the most fearsome and deadly in Minecraft, like the evil and the Ender Dragon. To reach the End, players must first a dimension with a nether portal and activate the portal.

The End, Small End Islands, End Highway, End Highway, End Highway

TRAILS AND TALES

Minecraft has always been a great canvas for storytellers, and the latest update – Trails & Tales – gives the player even more tools to craft their adventure and bring your stories to life!

Creatures are ideal for creating entire new dimensions, even, so their long legs help you get off to a head start of any realm-hopping.

EXPRESS YOURSELF

This update focuses on creativity and self-expression, so there are a ton of new decorative blocks, resources and customisation options to let you really make each of your Minecraft adventures your own.

WHAT'S NEW?

Trails & Tales comes with tons new building blocks: flowers and cherry. Players can travel the world on the back of a camel, and maybe even come across the beautiful but rare new biome, Cherry Grove.

Now we can discover secrets of the Minecraft world's past by indulging in a dashy spot of archaeology to find ancient plants, pottery shards (not a typo; you'll see soon enough) and woolly eggs. Who needs Jurassic Park when you can find your very own prehistoric woolly and explore buried ruins with your brand-new fossils?

TELL YOUR STORY

But what's an adventure if no one ever hears of it? That's where the new Library feature comes in, where players can craft stories in books and keep them safe in their very distinguished new bookshelves (and thanks to the new made heads, there is very much optional).
