now ensnares even those who manage to claw their way to the top requiring rich adults to work with crushing intensity exploiting their expensive educations in order to extract a return All this is not the result of deviations or retreats from meritocracy but rather stems directly from meritocracy's successes This is the radical argument that Daniel Markovits prosecutes with rare force Markovits is well placed to expose the sham of meritocracy Having spent his life at elite universities he knows from the inside the corrosive system we are trapped within Markovits also knows that if we understand that meritocratic inequality produces near universal harm we can cure it When The Meritocracy Trap reveals the inner workings of the meritocratic machine it also illuminates the first steps outward towards a new world that might once again afford dignity and prosperity to the American people

The Russian State and Russian Energy Companies, 1992-2018 Ingerid M. Opdahl, 2020-06-09 The Russian State and Russian Energy Companies analyses the development of relations between the state and five major energy companies and how this shaped Russia's foreign policy in the post Soviet region The book argues that the development of Russia's political economy mattered for foreign policy over the quarter of a century from 1992 to 2018 Energy companies' roles in institutional development enabled them to influence foreign policy formation and they became available as tools to implement foreign policy The extent to which it happened for each company varied with their accessibility to the Russian state Institutional development increased state capacity in a way

that strengthened Russia's political regime The book shows how the combined power of several companies in the gas oil electricity and nuclear energy industry was a key feature of Russian foreign policy both in bilateral relationships and in support of Russia's regional position In this way Russia's energy resources were converted to regional influence The book contributes to our understanding of Russia's political economy and its influence on foreign policy and of the formation of policy towards post Soviet states

Chasing Archipelagic Dreams David R. Saunders, 2024-12-15 In *Chasing Archipelagic Dreams* David R Saunders demonstrates that the withdrawal of the British imperial state from Sabah did not result in the decolonization of the territory From the late 1940s to the 1960s international anti colonialism interacted with regional competition over Sabah to result in a paradoxical increase of British power and influence on the ground Meanwhile ethnic social and political heterogeneity in Sabah contributed to fragmentation and disunity undermining the development of a local anti colonial movement Instead a class of influential local elites seized power as competing attempts by the Philippines Indonesia and Malaya to incorporate the territory into their respective archipelagic spheres grew in strength Due to these local and international rivalries Saunders argues Sabah's eventual merger with the Federation of Malaysia in 1963 prompted an extension of colonial style rule resource extraction the suppression of local autonomy and the

imposition of an externally configured national identity Chasing Archipelagic Dreams underscores the significance of regional rivalries in the South China Sea and highlights the fate of subaltern communities bisected by post colonial borders **Bush Runner** Mark Bourrie,2019-04-02 WINNER OF THE 2020 RBC TAYLOR PRIZE Readers might well wonder if Jonathan Swift at his edgiest has been at work RBC Taylor Prize Jury Citation A remarkable biography of an even more remarkable 17th century individual Beautifully written and endlessly thought provoking Maclean s Murderer Salesman Pirate Adventurer Cannibal Co founder of the Hudson s Bay Company Known to some as the first European to explore the upper Mississippi and widely as the namesake of ships and hotel chains Pierre Esprit Radisson is perhaps best described writes Mark Bourrie as an eager hustler with no known scruples Kidnapped by Mohawk warriors at the age of fifteen Radisson assimilated and was adopted by a powerful family only to escape to New York City after less than a year After being recaptured he defected from a raiding party to the Dutch and crossed the Atlantic to Holland thus beginning a lifetime of seized opportunities and frustrated ambitions A guest among First Nations communities French fur traders and royal courts witness to London s Great Plague and Great Fire and unwitting agent of the Jesuits corporate espionage Radisson double crossed the English French Dutch and his adoptive Mohawk family alike found himself marooned by pirates in Spain and lived through shipwreck on the reefs of Venezuela His most lasting venture as an Arctic fur trader led to the founding of the Hudson s Bay Company which operates today 350 years later as North America s oldest corporation Sourced from Radisson s journals which are the best first hand accounts of 17th century Canada Bush Runner tells the extraordinary true story of this protean 17th century figure a man more trading partner than colonizer a peddler of goods and not worldview and with it offers a fresh perspective on the world in which he lived A Research Agenda for Gentrification Winifred Curran,Leslie Kern,2023-06-01 Offering a new theoretical framework for understanding gentrification and displacement this timely Research Agenda focuses on resistance as the central research area in this subject field Arguing that the future of gentrification research should focus on accomplishing the end of gentrification chapters provide practical organizing and policy strategies using international case studies which are rooted in community based research Another Modernism Anna Myjak-Pycia,2025-06-12 Filling an important gap in design history Another Modernism examines how domestic space was conceived by the US home economics movement in the first half of the 20th century In doing so it tells the story of how home economists mainly women developed design that challenged the traditional architecture of American farm communities and countered the approach of modernist architects Uncovering unacknowledged contributions of women to domestic architecture and design history it reveals early instances of participation sustainability and accommodating the disabled body in domestic design In contrast to the canonical modernist model of space which is primarily visual home economists centered on a user who interacts with the interior in a tactile bodily way Although both strove for efficiency they understood it differently whereas for many of the mainstream modernists the term efficiency meant functionalist aesthetics for home economists it signified design solutions intended to

ease the labor of an average American homemaker The book argues that the home economists focus on tactility the user s corporeality movement access preferences and her engagement in the design process constituted an alternative model of modern architecture a popular and largely rural modernism centered on the specificity of the female user and her personal experience of the domestic interior Based on little known archival material and with an emphasis on mostly female researchers designers and users occupants Another Modernism will appeal to architects design historians and anyone interested in gender women s and disability studies as well as non visual approaches to design **The Report: Trinidad & Tobago 2016** Oxford Business Group,2016-08-07 In its March 2016 Economic Bulletin the Central Bank of T T stated that after negative growth of 1% in 2014 T T s economy contracted by a further 2.1% in 2015 as per provisional data Meanwhile government revenue fell by 6.2% in FY 2014 15 with a 35% decline in energy collections outstripping increases in non energy and capital receipts Nonetheless the recessionary environment is not without opportunity for the country s new leadership As the Government of Keith Rowley which assumed office in September 2015 works to bring government spending under control policies aimed at economic diversification could be set to gain further traction Moreover given that T T has a safety buffer in the form of strong foreign currency reserves and a sovereign wealth fund there is a relatively room to manoeuvre **The National Union Catalog, Pre-1956 Imprints** Library of Congress,American Library Association. Committee on Resources of American Libraries. National Union Catalog Subcommittee,1973 *Fighting the Great War at Sea* Norman Friedman,2014-10-22 The overriding image of the First World War is the bloody stalemate of the Western Front but although much of the action did occur on land the overall shape of the war _ even the inevitability of British participation _ arose out of its maritime character It was essentially a struggle about access to worldwide resources most clearly seen in the desperate German attempts to deal with the American industrial threat which ultimately levered the United States into the war and thus a consequence of British sea control rn This radical new book concentrates on the way in which each side tried to use or deny the sea to the other and in so doing it describes rapid wartime changes not only in ship and weapon technology but also in the way naval warfare was envisaged and fought Combat produced many surprises some like the impact of the mine and torpedo are familiar but this book also brings to light many previously unexplored subjects like creative new tactical practices and improved command and control rn The contrast between expectation and reality had enormous consequences not only for the course of the war but also for the way navies developed afterwards This book melds strategic technical and tactical aspects to reveal the First World War from a fresh perspective but also demonstrates how its perceived lessons dominated the way navies prepared for the Second *Current Law Index* ,2000 *History & Geography* ,2002 *Geography Grade 1* Steck-Vaughn Staff,2000-07-01 **Lifepac Gold History and Geography** Alpha Omega Publications,1996-04-01
