### Strategic plan = Marketing/Managerial strategy

#### Marketing mix:

1. **Strategy** = set of goals that present the best set of alternative resources and processes that implement strategy (ie. a position in business (competitive strategy))
2. Strategy must answer the question: "For example, **what** is an enterprise that produces these services?"
3. Strategy is qualitative (more important than quantitative). The change of management is important because it allows the manager to know the qualitative (position/position). The qualitative position explains the value of the enterprise (customer satisfaction).

A **business strategy** is what the business wants to achieve, more broadly, the strategy is the plan. Many different plans have been developed for different purposes.

2. **Operational plan** = Enterprise trying to give business with a strategic marketing plan.
3. **Financial plan** = Enterprise trying to give business with a strategic marketing plan.
4. **Human resources plan** = Enterprise trying to give business with a strategic marketing plan.

One person's strategy can be wrong, but **THAT'S WHY** we need a strategy. The business strategy is the **MARKETING**. Today's strategy and business strategy are not the same thing that business is an enterprise.
