This edited volume investigates the multifaceted elements that shape EAL pedagogy and research in a variety of settings and research areas including linguistic ability influences on subject-specific skills, integrating learners' home languages into classroom environments, and the importance of supporting EAL teachers in the classroom. In doing so, the contributors provide an international perspective on the emerging field of EAL research. The research-based chapters detail fundamental concerns related to EAL learner education. The text is composed of five parts: Part I explores the question of what is EAL and how a definition can shape policy construction; Part II examines the challenges EAL learners face in the classroom, including the use of first languages and the relative impact learner language proficiency has on subject-specific classes; Part III discusses the challenges involved with preparing learners to study in an EAL environment; Part IV investigates concerns relating to supporting EAL teachers in the classroom; and Part V brings together the insights from the previous chapters and provides a road map for future research in the field. The volume draws on researcher expertise from a variety of universities and institutions worldwide. It explores diverse language backgrounds in multilingual contexts. It covers empirical studies with pedagogical policy and further research implications. The volume represents a single resource invaluable for EAL teachers, trainers, and trainees, as well as researchers in education, language learning, and teaching, bilingualism and multilingualism, and second language acquisition.

**Resources in Education**, 1997 *A Generation Abandoned* Peter D. Beaulieu, 2017-04-26 *A Generation Abandoned* explores the disruptive cultural events, especially of the past half century, as these have undermined the confidence of the young in themselves and in civil society and finally in our place in the universe. The overall theme is the contrast between this sense of abandonment and our inborn and neglected orientation toward personal worth and the common good, the natural law. Much of what is peddled as social evolution today is shown to be a throwback to darker times. The analysis submits to a refreshingly conversational tone but also draws incisively from a very broad pallet of history, literature, theater, theology, and simplifying and illuminating anecdotes, some of them first-hand. An early chapter outlines the perfect storm of the 1960s. Later chapters expose the word games of the cultural elite, the saga of the family through history, and now its abrupt erosion and the difference between any meandering arc of history and a more grounded arc of relations, our rationalized culture of death versus a flourishing human ecology. **The Sacred Ripple** Marian Newell, 2016-11-15 In *The Sacred Ripple*, Marian Newell seeks to comfort others with the comfort she has received from God. **Normal Instructor and Teachers World**, 1918
