

Hurricane Gen 850 User Manual

Jianjun Gao

Hurricane Gen 850 User Manual:

Hurricane Iniki, September 6-13, 1992 United States. National Weather Service,1993 Although hurricanes are common over the eastern Pacific and annually are seen in parts of the central Pacific they are not routinely found over Hawaii Only four of these have impacted the Aloha State since 1950 Hurricane Iniki with winds up to 160 MPH was by far the strongest and most destructive This storm also completed a clean sweep of National Weather Service NWS offices responsible for issuing hurricane warnings The National Hurricane Center NHC in Coral Gables Florida Hurricane Andrew the Joint Typhoon Warning Center JTWC in Guam Typhoon Omar and the Central Pacific Hurricane Center CPHC in Honolulu Hawaii Hurricane Iniki were all struck by strong hurricanes within a 2 month span Relying on one geostationary satellite providing satisfactory but less than ideal coverage and an extremely sparse surface data network NWS forecasters and meteorological technicians across the state provided excellent warning service to residents and visitors alike Preface
