Unung Verawardina, Akrimullah Mubai, 2024-05-14. This is an open access book. Indonesia, as a member of ASEAN, is now facing the ASEAN Economic Community (AEC) 2016. The AEC will support the ASEAN's transformation into a region that guarantees free movement of goods, services, capital, and skilled labor. This will make ASEAN an even more dynamic and competitive region. In preparation for the AEC, the ASEAN member countries have ventured to improve the comparability and connectivity of their TVET systems. As an important component of human resources development, TVET is expected to play an active role in preparing the successful EAC. The implications of technological, economic, and social trends are intervening factors that refine pedagogical strategies leading to the molding of TVET as a more effective platform to catalyze pragmatic approaches to prepare the workforce for the new imperatives of the world of work. Regional integration and harmonization of TVET in the region have become key concerns, and at the same time, the strength of the ASEAN region. They are considered the overarching interventions needed in TVET to address major issues and challenges. *American Industrial Hygiene Association Quarterly*, American Industrial Hygiene Association, 1987.
