periodic upheavals She delineates four major periods in Indian history when there were significant shifts in the collective social perception of sex and sexuality and the associated customs and beliefs What causes this revision in sexual ethos To explain this Sex and Power proposes a modified version of Nietzsche's slave versus master morality theory The theory which is tested against the dynamics of each of the four defined periods establishes that the moral overview of any given period is determined not by a set of pre-existing ethics but by the existent power structure of the period in question The accepted moral code actually serves the party in power How would this theory play out in the context of India today Banerji examines this question at length as one of extreme urgency and concludes that the three most burning issues facing the country today population explosion AIDS and female genocide are the manifestations of a collective sexual malfunctioning of society and need to be redressed in the context of an existent social and economic power hierarchy
