*Topophrenia* Robert T. Tally, 2018-11-09 What is our place in the world and how do we inhabit understand and represent this place to others *Topophrenia* gathers essays by Robert Tally that explore the relationship between space place and mapping on the one hand and literary criticism history and theory on the other The book provides an introduction to spatial literary studies exploring in detail the theory and practice of geocriticism literary cartography and the spatial humanities more generally The spatial anxiety of disorientation and the need to know one's location even if only subconsciously is a deeply felt and shared human experience Building on Yi Fu Tuan's topophilia or love of place Tally instead considers the notion of topophrenia as a simultaneous sense of place consciousness coupled with a feeling of disorder anxiety and dis-ease He argues that no effective geography could be complete without also incorporating an awareness of the lonely loathsome or frightening spaces that condition our understanding of that space Tally considers the tension between the objective ordering of a space and the subjective ways in which narrative worlds are constructed Narrative maps present a way of understanding that seems realistic but is completely figurative So how can these maps be used to not only understand the real world but also to put up an alternative vision of what that world might otherwise be From Tolkien to Cervantes Borges to More *Topophrenia* provides a clear and compelling explanation of how geocriticism the spatial humanities and literary cartography help us to narrate represent and understand our place in a constantly changing world

*Make It New* Kurt Heinzelman, 2003 What was Modernism and why does it still matter The term itself first gained currency in the 1930s describing a kind of art that already may have peaked some would

say as early as 1922 Whatever its ups and downs in its own time as the novelist Julian Barnes claims in one of the twenty essays commissioned for the present volume Modernism never vanished It remains our immovable feast Modernism was international in scope it left its mark on all genres from literature and painting to opera dance and architecture it pushed the boundaries of what was artistically possible and aesthetically important and finally for all its destructive urges which it shared with the century itself it was also celebrative This book is a response to the exhibition of the same name that opened at the Harry Ransom Center in October 2003 It includes original essays by such noted writers and artists as Russell Banks Anita Desai David Douglas Duncan Elizabeth Hardwick and Penelope Lively which offer fresh perspectives on important Modernist figures including William Gaddis Ezra Pound William Faulkner E M Forster Paul Robeson Virginia Woolf Henry James Joseph Conrad Frank Lloyd Wright and Le Corbusier In addition essays by leading scholars in literature and art history focus on specific artifacts included in the exhibit As the Center's Director Thomas F Staley puts it in the Foreword Ours is an attempt not of definition but of discovery and rediscovery Book and exhibition permit both reader and viewer to experience the textures structures and resonances which made the first part of the twentieth century so innovative that its art is still virtually synonymous with what newness means

*Modernist Fiction and Vagueness* Megan Quigley, 2015-02-02 Modernist Fiction and Vagueness marries the artistic and philosophical versions of vagueness linking the development of literary modernism to changes in philosophy This book argues that the problem of vagueness language's unavoidable imprecision led to transformations in both fiction and philosophy in the early twentieth century Both twentieth century philosophers and their literary counterparts including James Eliot Woolf and Joyce were fascinated by the vagueness of words and the dream of creating a perfectly precise language Building on recent interest in the connections between analytic philosophy pragmatism and modern literature *Modernist Fiction and Vagueness* demonstrates that vagueness should be read not as an artistic problem but as a defining quality of modernist fiction
