La France Doit Agir:

The Normalisation of Exceptional Counterterrorism Powers Marine Guéguin, 2025-06-30 This book investigates the framing of the terrorist threat in France from 2015 to 2020 as an exceptional challenge which requires a special public security response The book examines how French political actors framed the terrorist threat in French political discourse from an exceptional challenge to a permanent routine threat It provides an in depth critical discourse analysis of the French political narratives surrounding the activation of the tat d urgence state of emergency following the 2015 Charlie Hebdo and Paris terrorist attacks and traces this narrative until 2020 The study explores the securitisation desecuritisation framework showing how the normalisation of emergency powers reflects the ongoing re construction of terrorism within French political contexts The work demonstrates the importance of threat framing and the securitisation of terrorism by considering the colonial legacies embedded in French counterterrorism CT policies By investigating the intersection of CT political discourse temporality and colonial continuity the book challenges traditional notions of exceptionalism in securitisation It argues that the routinisation of counterterrorism measures highlights the impossibility of fully desecuritising terrorism re establishing the status quo revealing how these measures are deeply rooted in France s colonial past This book will be of interest to students of Terrorism Studies Critical Security Studies French politics and International Relations

The Pragmatics of Negation Malin Roitman, 2017-12-14 Negation is one of the most discussed phenomena within linguistics on all language levels though it never seems to be exhausted This operator establishes complex sentence structures and constantly challenges from a cognitive syntactical semantic and morphologic viewpoint presuppositions on language internal relations as rational and logic It therefore arouses interest through all fields within language sciences From a pragmatic perspective where negation is conceived a marked structure using negation often produces meanings beyond the one of a reversed affirmation it is not the case that X This book explores the various uses and pragmatic meanings of negation in authentic communication in different text types and in different languages predominately romance languages The multilingual composition marries a macro micro perspective where aspects of genre sociocultural

context memory rhetoric and argumentation interplay with the negative morpheme s nature and embedded instructions This broad approach makes this book a unique contribution to negation studies and to pragmatics in general The book is important and enriching reading for scholars in all linguistic domains but particularly for researchers in semantics pragmatics argumentation and discourse analysis **California Slavic Studies, Volume V** Nicholas V.

Rabinovitch,2018-11-15 In *The Perraults* Oded Rabinovitch takes the fascinating eponymous literary and scientific family as an entry point into the complex and rapidly changing world of early modern France Today the Perraults are best remembered for their canonical fairy tales such as *Cinderella* and *Puss in Boots* most often attributed to Charles Perrault one of the brothers While the writing of fairy tales may seem a frivolous enterprise it was in fact linked to the cultural revolution of the seventeenth century which paved the way for the scientific revolution the rise of national literatures and the early Enlightenment Rabinovitch argues that kinship networks played a crucial yet unexamined role in shaping the cultural and intellectual ferment of the day which in turn shaped kinship and the social history of the family Through skillful reconstruction of the Perraults careers and networks Rabinovitch portrays the world of letters as a means of social mobility He complicates our understanding of prominent institutions such as the Academy of Sciences Versailles and the salons as

well as the very notions of authorship and court capitalism The Perraults shows us that institutions were not simply rigid entities embodying or defining intellectual or literary styles such as Cartesianism empiricism or the purity of the French language Rather they emerge as nodes that connect actors intellectual projects family strategies and practices of writing
