Lesbian Lane Girls Getting Off Book English Edition:

Murder in the Closet Curtis Evans, 2017-01-11 Before the 1969 Stonewall Riots LGBTQ life was dominated by the negative image of the closet the metaphorical space where that which was deemed queer was hidden from a hostile public view Literary studies of queer themes and characters in crime fiction have tended to focus on the more positive and explicit representations since the riots while pre Stonewall works are thought to reference queer only negatively or obliquely This collection of new essays questions that view with an investigation of queer aspects in crime fiction published over eight decades from the corseted Victorian era to the unbuttoned 1960s

Modern American Queer History Allida Mae Black, 2001 In the twentieth century countless Americans claimed gay lesbian bisexual and transgender identities forming a movement to secure social as well as political equality This collection of essays considers the history as well as the historiography of the queer identities and struggles that developed in the United States in the midst of widespread upheaval and change Whether the subject is an individual life story a community study or an aspect of public policy these essays illuminate the ways in which individuals in various locales understood the nature of their desires and the possibilities of resisting dominant views of normality and deviance Theoretically informed but accessible the essays shed light too on the difficulties of writing history when documentary evidence is sparse or coded Taken together these essays suggest that while some individuals and social networks might never emerge from the shadows the persistent exploration of the past for their traces is an integral part of the on going struggle for queer rights
