

Lesson Plan – Trigonometry Day 2 & 3

Special Right Triangle – Reteach/Activity

| | |
|--|---|
| Utah State Core Standard and Objective | F.TF.3 - Use special triangles to determine geometrically the values of sine, cosine, tangent for $\pi/3$, $\pi/4$ and $\pi/6$, and use the unit circle to express the values of sine, cosine, and tangent for $\pi - x$, $\pi + x$, and $2\pi - x$ in terms of their values for x , where x is any real number. |
| Essential Question | What is the relationship between the three sides of special right triangles? |
| How do activities, materials, etc connect to student's prior knowledge? | Students have had a special right triangle lesson in the class period before. It didn't seem like they were understanding. This lesson will be a re-teach. I am going to use chunking to help students remember the different steps. |
| Assessments (formative and/or summative) | Bell Ringer – Rationalizing the denominator. We talked about this in the last class. This will help me check their understanding. It will give them practice using it again before we jump in to the lesson. |
| Learning Activities: (include detailed description and time frame for each activity) | <p>Bell Ringer (5 min) – Rationalizing the denominator</p> <p>Lesson (50 min) – Reteach Special Right Triangles I will be using chunking. We will do five different sections: 45-45-90 given one leg, 45-45-90 given the hypotenuse, 30-60-90 given the short leg, 30-60-90 given the long leg, & 30-60-90 given the hypotenuse.</p> <p>5 min – direct instruction. The examples I will use will be from the previous days homework (reviewing homework while re-teaching)</p> <p>5 min – students will find problems around the room to answer for the section they just re-learned</p> <p>repeat for each section</p> |
| Accommodations made for struggling and accelerated learners (grouping patterns, content literacy strategies, etc.) | <p>Group work - They can work in groups while they are working around the classroom.</p> <p>Prepared Notes - They will have notes that are already prepared to help them follow along and they can add to them to help their understanding.</p> |
| Differentiation (2 ways) | Steps – I will give them clear and simple steps to follow to get their answers. |
| Resources | Mrs. Dangerfield |
| How has the prior day's assessment shaped your instruction? | Students were confused in the prior days lesson. I don't feel like I taught it in the best way. I know I can do better, so we will be re-teaching the same material, but simplifying the process and steps. |
