## May June 2015:

*Global Economic Prospects, June 2015* The World Bank, 2015-06-22 Global growth is expected to be 2.8 percent in 2015 but is expected to pick up to 3.2 percent in 2016. Growth in developing countries and some high income countries is set to disappoint again this year. The prospect of rising borrowing costs will compound the challenges many developing countries are facing as they adapt to an era of low commodity prices. Risks to this outlook remain tilted to the downside. This edition of *Global Economic Prospects* includes two Special Features that analyze the policy challenges raised by the two transitions in developing countries: the risks associated with the first U.S. central bank interest rate increase since 2006 and the implications of persistently low commodity prices for low income countries. *Global Economic Prospects* is a World Bank Group Flagship Report that examines global economic developments and prospects with a special focus on developing countries on a semiannual basis in January and June. The January edition includes in depth analyses of topical policy challenges faced by developing countries while the June edition contains shorter analytical pieces. *Assessment in Learning* Prerna

Mehta, 2022-04-29 This book puts lights on the detailed knowledge of assessment from a constructivist perspective. It should be understood by teachers that it is not assessment of learning but assessment for learning. Assessment needs to be seen as a part of our education system rather than a separate part. All the units of this book have been written keeping the centre idea of assessment and learning in every aspect of teacher and students. The book presented highlights Assessment for Learning constructivism and assessment in the first unit, levels and dimensions of learning in the learning in the second unit, different types of assessment techniques in the third unit, assessment tools, portfolios, feedback in the fourth unit, and includes feedback progress record in fifth unit. *Focus On: 100 Most Popular Indian Drama Films* Wikipedia contributors, *Liberia*

International Monetary Fund. African Dept., 2019-06-19 Liberia remains a fragile post conflict country with weak capacity and limited physical and human capital accumulation. External assistance to Liberia is winding down from its peak in 2016. To address pressing needs the government launched its Pro Poor Agenda for Prosperity and Development (PAPD) focusing on physical and human capital accumulation. Policy uncertainty and slippages however imposed a significant toll on the economy over the past two years. Particularly higher fiscal deficits and accommodative monetary policy have led to rapid depreciation of the Liberia dollar and increased inflation eroding the purchasing power of the poor. **Sustainable Wildlife**

**Management - Unasylva 249** Food and Agriculture Organization of the United Nations, 2018-09-17 Wildlife management is the focus of considerable international debate because of its importance for biodiversity conservation, human safety, livelihoods and food security. Local people have been managing wildlife for millennia including through hunting. Sufficient examples are presented in this edition to show that sustainable wildlife management is also feasible in the modern era. In some cases a sustainable off-take by local people, trophy hunters and legitimate wildlife traders is proving vital to obtain local buy-in to wildlife management and to pay the costs of maintaining habitats. No doubt the debate will continue on the best

*Spain* International Monetary Fund. European Dept., 2015-08-14 This 2015 Article IV Consultation highlights that Spain's recovery has gathered speed but unemployment remains very high Growth has picked up and is expected at 3.1 percent in 2015 and 2.5 percent in 2016 well above the euro area average Strong policy implementation has supported the return of confidence and significant external tailwinds are helping the rebound However deep structural problems limit Spain's growth potential going forward and vulnerabilities remain The high structural unemployment and pervasive labor market duality and the lack of economies of scale of Spain's many small firms hold back medium term growth Public and private debt levels are still high and are likely to keep weighing on consumption and investment      China's Future David Shambaugh, 2016-03-11

China's future is arguably the most consequential question in global affairs. Having enjoyed unprecedented levels of growth, China is at a critical juncture in the development of its economy, society, polity, national security, and international relations. The direction the nation takes at this turning point will determine whether it stalls or continues to develop and prosper. Will China be successful in implementing a new wave of transformational reforms that could last decades and make it the world's leading superpower? Or will its leaders shy away from the drastic changes required because the regime's power is at risk? If so, will that lead to prolonged stagnation or even regime collapse? Might China move down a more liberal or even democratic path? Or will China instead emerge as a hard authoritarian and aggressive superstate? In this new book, David Shambaugh argues that these potential pathways are all possibilities but they depend on key decisions yet to be made by China's leaders, different pressures from within Chinese society, as well as actions taken by other nations. Assessing these scenarios and their implications, he offers a thoughtful and clear study of China's future for all those seeking to understand the country's likely trajectory over the coming decade and beyond.

**International Farm Animal, Wildlife and Food Safety Law** Gabriela Steier, Kiran K. Patel, 2017-01-09 This volume is an inspiring and breakthrough piece of academic scholarship and the first of its kind featuring a comprehensive reader-friendly approach to teach the intricacies of the various aspects of international farm animal, wildlife, conservation, food safety, and environmental protection law. The selected focus areas are grouped in sections such as agrobiodiversity, fishing and aquaculture, pollinators and pesticides, soil management, industrial animal production and transportation, and international food trade. Farm animal welfare, environmental protection, biodiversity, conservation, and food safety are the core of the selected chapters. Every chapter provides real-world examples to make the complex field easy to understand. With its systematic approach, this book is devoted to anyone interested in the subject. It becomes a valuable resource for professionals working in food regulation and provides a solid foundation for courses and master's programs in animal law, environmental policy, food and agriculture law, and regulation of these subjects around the world. Through its emphasis on sustainable food production, this work offers a cutting-edge selection of evolving topics at the heart of the pertinent discourse. As one of its highlights, this book also provides Tools for Change, a unique compilation and analysis of laws from the major farm animal product trading nations. With these tools, practitioners, advocates, policy makers, and other state holders are equipped with information to start work toward improving farm animal welfare, wildlife conservation, and food safety through the use of law and policy.

**Independent Power Projects in Sub-Saharan Africa** Anton Eberhard, Katharine Gratwick, Elvira Morella, Pedro Antmann, 2016-04-18 Inadequate electricity services pose a major impediment to reducing extreme poverty and boosting shared prosperity in Sub-Saharan Africa. Simply put, Africa does not have enough power. Despite the abundant low-carbon and low-cost energy resources available to Sub-Saharan Africa, the region's entire installed electricity capacity at a little over 80 GW is equivalent to that of the Republic of Korea. Looking ahead, Sub-Saharan Africa will need to ramp up its power generation capacity substantially. The investment needed to meet

this goal largely exceeds African countries already stretched public finances Increasing private investment is critical to help expand and improve electricity supply Historically most private sector finance has been channeled through privately financed independent power projects IPP supported by nonrecourse or limited recourse loans with long term power purchase agreements with the state utility or another off taker Between 1990 and 2014 IPPs have spread across Sub Saharan Africa and are now present in 17 countries Currently there are 125 IPPs with an overall installed capacity of 10 7 GW and investments of 24 6 billion However private investment could be much greater and less concentrated South Africa alone accounts for 67 IPPs 4 3 GW of capacity and 14 4 billion of investments the remaining projects are concentrated in a handful of countries The objective of this study is to evaluate the experience of IPPs and identify lessons that can help African countries attract more and better private investment At the core of this analysis is a reflection on whether IPPs have in fact benefited Sub Saharan Africa and how they might be improved The analysis is based primarily on in depth case studies carried out in five countries including Kenya Nigeria South Africa Tanzania and Uganda which not only have the most numerous but also among the most extensive experience with IPPs *COVID-19* Jamie K. Wardman,Ragnar

Löfstedt,2022-11-28 This comprehensive book looks at COVID 19 along with other recent infectious disease outbreaks with the broad aim of providing constructive lessons and critical reflections from across a wide range of perspectives and disciplinary interests within the risk analysis field The chapters in this edited volume probe the roles of risk communication risk perception and risk science in helping to manage the ever growing pandemic that was declared a public health emergency of international concern in the beginning of 2020 A few chapters in the book also include relevant content discussing past disease outbreaks such as Zika Ebola and MERS CoV This book distils past and present knowledge appraises current responses introduces new ideas and data and offers key recommendations which will help illuminate different aspects of the global health crisis It also explores how different constructive insights offered from a risk perspective might inform decisions on how best to proceed in response as the pandemic continues The chapters in this book were originally published as a special issue of the Journal of Risk Research [Catalog of Catalogs: A Bibliography of Temporary Exhibition Catalogs Since 1876 that Contain Items of Judaica](#) William Gross,Orly Tzion,Falk Wiesemann,2019-09-16
