French and African youth collided with transnational efforts to make young people in Western Europe feel more European. She connects a particular postwar vision for European unity which coded Europe as both white and raceless, Christian and secular, to crucial decisions about what should be taught in African classrooms and how many scholarships to provide young Africans to study and train in France. That vision of Europe also informed French responses to African student activism for racial and religious equality which ultimately turned many young francophone Africans away from France irrevocably. **Black France: White Europe** shows that the interconnected history of colonial and European youth initiatives is key to explaining why, despite efforts to strengthen ties with its African colonies in the 1940s and 1950s, France became more European during those years. **Auction catalogue, books of Guglielmo Libri, 25 April to 8 May 1861** S. Leigh Sotheby & John

Wilkinson (London), 1861. **I'm Buffy and You're History** Patricia Pender, 2016-06-28. Buffy the Vampire Slayer gave contemporary TV viewers an exhilarating alternative to the tired cultural trope of a hapless attractive blonde woman victimized by a murderous male villain. With its strong, capable heroine, witty dialogue, and a creator Joss Whedon who identifies himself as a feminist, the cult show became one of the most widely analysed texts in contemporary popular culture. The last episode broadcast in 2002 did not herald the passing of a fleeting phenomenon. Buffy is a media presence still active on DVD and the internet, alive in the career of Joss Whedon and studied internationally. **I'm Buffy and You're History** puts the entire series under the microscope, investigating its gender and feminist politics. In this book, Patricia Pender argues that Buffy includes diverse elements of feminism and reconfigures and sometimes revises the ideals of American second-wave feminism for a wide third-wave audience. She also explores the ways in which the final season's vision of collective feminist activism negotiates racial and class boundaries. Exploring the Slayer's postmodern politics, her position as a third-wave feminist icon, her placing of masculinity in extremis, and her fandom and legacy in popular culture, this is a fresh and challenging contribution to the growing literature on the pitfalls and pleasures of a great cult TV show. **External Powers**

**and the Gulf Monarchies** Jonathan Fulton, Li-Chen Sim, 2018-09-03. The Gulf monarchies have been generally perceived as status quo actors reliant on the USA for their security, but in response to regional events, particularly the Arab Spring of 2011, they are pursuing more activist foreign policies which has allowed other international powers to play a larger role in regional affairs. This book analyses the changing dynamic in this region with expert contributors providing original empirical case studies that examine the relations between the Gulf monarchies and extra-regional powers including the USA, Russia, China, India, Brazil, Turkey, Japan, South Korea, France, and the United Kingdom. At the theoretical level, these case studies explore the extent to which different international relations and international political economy theories explain change in these relationships as the regional political and security environment shifts. Focusing on how and why external powers approach their relationships with the Gulf monarchies, contributors ask what motivates external powers to pursue deeper involvement in an unstable region that has seen three major conflicts in the past 40 years. Addressing an under-analysed yet important

topic the volume will appeal to scholars in the fields of international relations and international political economy as well as area specialists on the Gulf and those working on the foreign policy issues of the extra regional powers studied

*Social Housing in the Middle East* Kivanç Kiliç, Mohammad Gharipour, 2019-03-01 Essays on architecture in Kuwait Iran Israel and other nations in the region and how it can and must address the needs of local residents As oil rich countries in the Middle East are increasingly associated with soaring skyscrapers and modern architecture attention is being diverted away from the pervasive struggles of social housing in those same urban settings Social Housing in the Middle East traces the history of social housing both gleaming postmodern projects and bare bones urban housing structures in an effort to provide a wider understanding of marginalized spaces and their impact on identities communities and class While architects may have envisioned utopian or

futuristic experiments these buildings were often constructed with the knowledge and skill sets of local workers and the housing was in turn adapted to suit the modern needs of residents This tension between local needs and national aspirations are linked to issues of global importance including security migration and refugee resettlement The essays collected here consider how culture faith and politics influenced the solutions offered by social housing they provide an insightful look at how social housing has evolved since the nineteenth century and how it will need to adapt to suit the twenty first Essential reading for architectural and social historians planners and policy makers CAA Reviews

### **The British Aircraft Industry and American-led**

**Globalisation** Takeshi Sakade, 2021-12-09 Sakade challenges the narrative that the focus of British manufacturing went from Empire to Europe and argues rather that following the Second World War the key relationship was in fact trans Atlantic There is a commonly accepted belief that during the twentieth century British manufacturing declined irreparably that Britain lost its industrial hegemony But this is too simplistic In fact in the decades after 1945 Britain staked out a new role for itself as a key participant in a US led process of globalisation Far from becoming merely a European player the UK actually managed to preserve a key share in a global market and the British defence industry was to a large extent successfully rehabilitated Sakade returns to the original scholarly parameters of the decline controversy and especially questions around post war decline in the fields of high technology and the national defence industrial base Using the case of the strategically critical military and civil aircraft industry he argues that British industry remained relatively robust A valuable read for historians of British aviation and more widely of 20th century British Industry

*Ethical Trade, Gender and Sustainable Livelihoods* Kiah Smith, 2014-03-21 Fair and ethical trade is often criticized for being highly gendered and for institutionalizing the ethical values of consumers the priorities of NGOs and

governments and most of all food retailers But little is known about how women smallholder farmers experience diverse ethical standards or whether and how standards reflect their values local cultural and environmental contexts or priorities for achieving sustainable livelihoods Linking gender smallholder livelihoods and global ethical trade regulations this book reveals that multiple understandings of social justice environmental sustainability and well being or ethicality exist in parallel to those institutionalized in ethical trade schemes Through an in depth case study of smallholder subsistence and French bean farming in Kenya the book grounds the analysis of livelihoods gender and ethical trade in women smallholders perspectives links the macro level of markets with the micro level of livelihoods and engenders relations of power structure and agency in food networks It brings together disparate bodies of theory to illustrate the knowledge strategies and values of women smallholder farmers that are often beyond the scope of ethical trade regulations It also provides a challenging new vision for doing food systems research
