In the last few years, instead of hiring full time employees, Company X has made an effort to hire more independent contractors (consultants). As a result, this helps offset high costs of health and employee benefits. This shift in recruiting has created a demand on the IT infrastructure including department processes and procedures that are not being followed properly. This has had a negative effect on security policies in the DMS (data management system) department. I have identified two areas on vulnerability as it relates to database management systems:

1. The first one deals with patches and security updates on the database servers especially on the Windows OS. In the past we had more leeway in the maintenance window. Once a month we were able to take the servers offline for a few hours and apply the critical updates and patches. Also this procedure was automated for the most part. With the
