insights into how they can be true to their faith within the workplace and yet be sensitive and respectful to others of varying faith commitments and beliefs Yet for Christians respect of other faith traditions is especially difficult since Christianity as the dominate religion has become secularized and institutionalized within the workplace as represented in holidays and days off Within the multiple theoretical and research dimensions of management religion and spirituality this book explores theoretical conceptual and strategic theories and research which consider how individuals and organizations integrate their Christian faith in the workplace and how these groups attempt to change society as a whole This historical movement is characterized by a desire for people to live a holistic life which integrates their Christian faith into the workplace also deemed faith at work Historically Christian s faith integration is manifested individually or collectively and is demonstrated in the ways it shapes and informs the values systems ethics character and attitudes towards work This edited volume draws themes out of the three historical epochs of the faith and work movement traced by Miller 2007 in the book *God at work The history and promise of the faith at work movement* These organizing themes while not congruent to the historical epochs do capture the ways in which people of faith have historically attempted to integrate their faith into the workplace These themes include Individual integration organizational strategies for integration and societal integration
