Breve. [Edited by C. L. N. Mynster.] Jakob Peter MYNSTER (Bishop of Zealand.),1860 *Functional Structure in Morphology and the Case of Nonfinite Verbs* Peter Juul Nielsen,2016-06-10 In this book Peter Juul Nielsen examines the foundations of morphological theory from a structural functional perspective on language as a sign system He offers a framework for the analysis of morpheme relations based on a thorough discussion of syntagmatic and paradigmatic structure indexical relations zero as meaningful absence and morphological relations across grammatical categories It is argued that when paradigmatically related morphological structures have different syntactic functions the semantics of the paradigmatic opposition consists in the specification of functional potential The framework is applied in three detailed studies of Danish nonfinite verbs presenting new accounts of their morphological structure semantic coding and paradigmatic organisation

Information Structure Nomi Erteschik-Shir, 2007-01-11. This introduction to the role of information structure in grammar discusses a wide range of phenomena on the syntax-information structure interface. It examines theories of information structure and considers their effectiveness in explaining whether and how information structure maps onto syntax in discourse. Professor Erteschik-Shir begins by discussing the basic notions and properties of information structure such as topic and focus and considers their properties from different theoretical perspectives. She covers definitions of topic and focus, architectures of grammar, information structure, word order, the interface between lexicon and information structure and cognitive aspects of information structure. In her balanced and readable account, the author critically compares the effectiveness of different theoretical approaches and assesses the value of insights drawn from work in processing and on language acquisition, variation and universals. This book will appeal to graduate students of syntax and semantics in departments of linguistics, philosophy and cognitive science.
