

# ASCVD RISK REDUCTION ALGORITHM: DYSLIPIDEMIA

## ASSESS LIPID PANEL (LDL-C, HDL-C, Non-HDL-C, TG, Apo B)<sup>1</sup>

**LIFESTYLE INTERVENTION:** Increase ↑ dietary fiber | ↑ healthy fat | ↓ saturated fat | ↓ simple carbs | ↓ added sugars | ↑ physical activity | weight management

## PREDIABETES OR T2D + RISK FACTORS: USE ASCVD 10-YEAR RISK CALCULATOR

Major ASCVD Risk Factors: Age >40 | HTN | CKD >3a | Smoking | Family History of Premature ASCVD | Low HDL-C | High Non-HDL-C

## INITIATE STATIN THERAPY

**HIGH RISK <10%**  
T2D <10 years  
<2 other risk factors  
No target organ damage

**VERY HIGH RISK 10%-30%**  
T2D >10 years  
Age >40 years  
No ASCVD  
No target organ damage  
≥2 additional risk factors

**EXTREME RISK >30%**  
T2D & ASCVD  
Severe target organ damage: eGFR <45 mL/min/1.73 m<sup>2</sup>, UACR >300, ABI <0.9, LV systolic/diastolic dysfunction

Moderate-Intensity statin

**G  
O  
A  
L**

LDL-C (mg/dL)	<100	<70	<55
Non-HDL-C (mg/dL)	<130	<100	<80
TG (mg/dL)	<150	<150	<150
Apo B (mg/dL)	<90	<80	<70

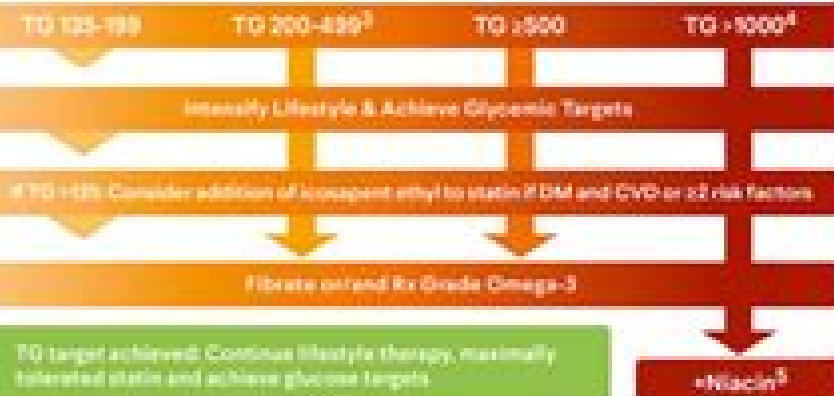

Monitor and titrate therapy every 3-6 months to achieve lipid targets according to risk<sup>2</sup>

Intensify statin and lifestyle & optimize glycemic control

Add ezetimibe

Consider additional therapy: bile acid sequestrant, bempedoic acid, PCSK9 inhibitors, inclisiran

## HYPERTRIGLYCERIDEMIA MANAGEMENT:

<sup>1</sup>Baseline LDL-C >190 mg/dL, consider familial hypercholesterolemia. <sup>2</sup>Statin intolerance: Use alternative statin with lower incidence of myopathy (pitavastatin, extended-release fluvastatin) or decrease dose/frequency, use non-statin Rx, check for Rx interactions, consider CoQ10. <sup>3</sup>If TG >200 and HDL <40, add fibrate/omega-3 to achieve apo B and non-HDL goals. <sup>4</sup>Elevated triglycerides >500 mg/dL, to >1000 mg/dL, can cause acute pancreatitis, urgent intervention with dietary management and fibrate/omega-3 therapy is needed. Suspect familial chylomicronemia syndrome or lipodystrophy, refer to lipid specialist. <sup>5</sup>For severe hypertriglyceridemia >1000 refractory to previous interventions, consider niacin to reduce the risk of pancreatitis. Niacin may lower TG and Lp(a) but does not reduce ASCVD and can promote hyperglycemia.

O'Connell,2005 Medical nutrition therapy plays an integral role in the management in diabetes This comprehensive guide is an evidence based review of MNT and the Nutrition Care Process and a practical reference of diabetes management tools and nutrition education Covering practice guidelines outcomes evaluation nutrition assessments goal setting behavior change and interventions this guide is a must have resource for health care professionals serving the diabetes community

**Sadikot's International Textbook of Diabetes** Kamlakar Tripathi, Banshi Saboo, 2019-04-30 This book is a complete guide to the diagnosis and management of diabetes Divided into eight sections the text begins with an overview of the history epidemiology and pathogenesis of the disease The next chapters discuss different types diabetes diagnosis managements techniques and monitoring The following sections cover chronic and acute complications and diabetes in special situations such as in pregnancy and during Ramadan The book concludes with discussion on transplant gene and stem cell therapy psychosocial aspects and public health and economics The comprehensive text is further enhanced by clinical photographs diagrams and exhaustive references Key points Comprehensive guide to diagnosis and management of diabetes Covers different types of diabetes and potential complications Includes discussion on diabetes in special situations such as in pregnancy or during Ramadan Features clinical photographs diagrams and exhaustive references Priorities in Critical Care Nursing - E-Book Linda D. Urden, Kathleen M. Stacy, Mary E. Lough, 2022-10-27 American Journal of Nursing AJN Book of the Year Awards 2nd Place in Critical Care Emergency Nursing 2023 Selected for Doody's Core Titles 2024 in Critical Care Focus on the most important concepts in progressive and critical care nursing with Priorities in Critical Care Nursing 9th Edition Ideal for students practicing nurses undergoing in service training for progressive and critical care and progressive or critical care nurses reviewing for PCCN or CCRN certification this trusted evidence based textbook uses the latest most authoritative research to help you identify patient priorities in order to safely and expertly manage patient care Succinct coverage of all core progressive and critical care nursing topics includes medications patient safety patient education problem identification and interprofessional collaborative management You will learn how to integrate the technology of progressive and critical care with the physiological needs and psychosocial concerns of patients and families to provide the highest quality care Need to know content reflects the realities of today's progressive and critical care environments UNIQUE Balanced coverage of technology and psychosocial concerns includes an emphasis on patient care priorities to help you learn to provide the highest quality nursing care Consistent format features a Clinical Assessment and Diagnostic Procedures chapter followed by one or more Disorders and Therapeutic Management chapters for each content area Strong quality and safety focus throughout includes Evidence Based Practice boxes that highlight evidence specific to the discussion Patient Centered Care boxes that provide recommendations to address patient uniqueness Quality Improvement boxes describing quality initiatives and implications for practice Teamwork and Collaboration boxes that provide guidelines for effective handoffs assessments and communication between nurses and other hospital staff Safety boxes that highlight important guidelines and tips to ensure patient safety in critical care settings and Informatics boxes that provide additional online resources Patient Care Management Plans at the end of the book provide a complete care plan for every priority patient problem including outcome criteria nursing interventions and rationales Priority Patient and Family Education Plan boxes list priority topics to be taught to the patient and family prior to discharge **An Athletic Trainers' Guide to**

**Sports Nutrition** Damon Amato, 2024-06-01 An Athletic Trainer's Guide to Sports Nutrition fills the void of a subject area that is underrepresented in current athletic trainer curriculums despite its importance in the field. Damon Amato has created a text that can be easily read and understood by health care professionals yet is in depth enough to create a solid understanding of how the body works and easy enough to then pass on the information to athletes to help them eat ideally based on their specific sport goal and situation. Giving a physiology background is necessary to lay the foundation for understanding why certain recommendations in the text are given; however, only the necessary details are included to focus on what is pertinent for athletic trainers to understand while advising athletes. Some topics covered inside include Basics of human nutrition, Disordered eating and eating disorders in athletes, Supplements, Eating optimally for injury recovery, Nutrient timing, Special situations. An Athletic Trainer's Guide to Sports Nutrition gives athletic training clinicians and students the information and tools necessary to aid athletes in maintaining peak performance in nutrition and fills the void left in the current athletic training curriculum.

*Lewis's Medical-Surgical Nursing 6th Australia and New Zealand Edition* Diane Brown, Thomas Buckley, Robyn Aitken, Helen Edwards, 2023-11-28 Lewis's Medical Surgical Nursing has long been considered a comprehensive and reliable resource for nursing students preparing for their transition into clinical practice. This sixth edition has been fully updated to incorporate the latest research data, current clinical practice procedures and guidelines. The text addresses core skills and knowledge that students need to pass their exams and go on to provide expert clinical care. It prepares nurses to assess patients, understand underlying diseases and their signs and symptoms, and go on to plan and deliver care. The text encourages readers to develop their clinical reasoning and problem-solving skills in order to apply theory to their work. This edition has been produced by leading expert nursing academics and clinicians who bring a strengthened focus on inclusion and diversity. Provides a person-centred holistic approach to patient assessment and care. Complex concepts are illustrated with figures, tables, summaries, and reflections of best practice. Case studies throughout, based on real-life medical/surgical scenarios, help students to apply theory to real life. Clinical practice features offer practical guidance for students. Underpinned by the nursing process framework. Instructor resources on Evolve: Image collection, PowerPoint slides, Student and Instructor resources on Evolve, Answer guidelines for clinical reasoning questions in case studies, Student case studies, Fluids and electrolytes tutorial, eNursing Care Plans, Clinical Cases, Case Study Review questions and answers with answer rationale, Conceptual Care Map, Createo Refreshed and up-to-date evidence, statistics, standards and procedures. Updated chapters on the deteriorating patient and advanced life support to reflect recent international ILCOR and national ARC practice guidelines. New chapter on caring for individuals with intellectual disability and autism. Increased focus throughout on culturally safe care that aims to improve access to services and improved health outcomes for Māori, Aboriginal and Torres Strait Islander people. Focus on the impact of COVID-19. Enhanced content on gender equity, mental health, intellectual disability and autism, harm minimisation for people experiencing the effects of alcohol and other drugs.

patient safety and nurses wellbeing and safety at work Updated Evolve resources for students and instructors

*Fundamentals of Geriatric Pharmacotherapy* Lisa C. Hutchison, Rebecca B. Sleeper, 2010-03-24 A change is coming By 2050 the world's 65 and older population will double and the 85 and older population will mushroom fivefold As the number of older adults surge so too will the number of medication management challenges pharmacists and other health care providers experience For the geriatric population complex cases are often the norm and providing safe and effective care can mean considering assessments of function and cognition contacting multiple prescribers and understanding a patient's history beliefs and care giving situation before making therapeutic decisions *Fundamentals of Geriatric Pharmacotherapy: An Evidence Based Approach* gives practitioners the information they need to improve outcomes and personalize care for elderly patients Section 1 explores important foundational concepts such as social and behavioral issues ethical considerations biomedical principles of aging geriatric assessment and polypharmacy Section 2 covers common disease states in aging adults providing evidence based treatment information as well as helpful tips for minimizing common problems and contending with clinical controversies Particular attention is given to how treatment can differ along the spectrum of active elderly to frail elderly patients Useful features throughout the book guide practitioners in navigating the maze of information required when caring for an older patient These include Summarized treatment guidelines Reviews of the evidence base Special focus on recommendations for frail elderly At least one full case study or more in each chapter Clinical Pearls Key Points highlight important information in each chapter Key terms and definitions The demands of an aging population mean a greater understanding of geriatric pharmacotherapy will soon be essential for all health care providers *Fundamentals of Geriatric Pharmacotherapy* ensures that you'll have the information needed to respond appropriately *Adult-Gerontology Practice Guidelines* Jill C. Cash, Cheryl A. Glass, 2015-06-26 The first book to encompass adult gerontology practice guidelines for primary care this comprehensive resource is designed as a text and reference for health care practitioners specializing as adultgerontology nurse practitioners A GNP It provides current national practice guidelines for delivering high quality primary health care to adult older adult and pregnant patients in the outpatient setting The book delivers chapters that focus on the older adult person including a chapter describing the major effects of aging on each body system For quick and easy access practice guidelines are organized primarily by body system disorders listed alphabetically within each body system and each disorder presented in a consistent format throughout With an emphasis on history taking the physical exam and key features of the aging population each of the more than 240 disorder guidelines include definition incidence pathogenesis predisposing factors common complaints other signs and symptoms subjective data physical exam diagnostic tests differential diagnoses plan of care health promotion including dietary recommendations follow up guidelines and tips for consultation referral Particularly useful features include Practice Pointers highlighting crucial information for a disorder and bold faced Alerts from experienced practitioners The book also describes 19 procedures commonly used within the office or

clinic setting More than 140 Patient Teaching Guides are included perforated for ease of use as well as in digital format for customizing and printing These include important information for patients about safety and medications Appendices feature normal lab values and dietary guidelines Key Features Focuses specifically on the adult older adult and pregnant patient populations Delivers consistent presentation of more than 240 disorders by body system for ease of access Step by step review of 19 commonly used procedures Practice Pointers indicate highly important care points Includes more than 140 extensive Patient Teaching Guides for take home information Useful as a review text when preparing to take the A GNP certification course and exam **Integrative Healthcare Remedies for Everyday Life - E-Book** Malinee
