

Welcome to our Lab report Writing Unit

Dear Families,

We are launching our lab report informational writing unit! Throughout this unit your child will be immersed in science topics that include forces and motion. We will be studying how scientists structure their lab reports by following the scientific process. We will become familiar with the scientific process as a process that begins with a question and a hypothesis. We will then learn how to write a procedure that includes specific steps. We will then conduct experiments and record our results. From our results we will draw conclusions about our experiments. Talking with your child about the experiments that we conduct in class while using scientific vocabulary will aid in your child's understanding of this unit. Some vocabulary words that you might want to include throughout your conversations include:

- Hypothesis
- Procedure
- Results
- Conclusion
- Force
- Motion
- Movement
- Friction
- Measure
- Trial
- Observe
- Compare
- Data

These are just a few vocabulary words that you may find helpful when discussing forces and motion with your child. We hope that you and your child enjoy our informational writing unit. Thank you for your continued collaboration as we work together to ensure your child's success. Happy writing!

Sincerely,

Second Grade Teachers
