Manual For The Use Of Focus Groups

Richard A. Krueger

Manual For The Use Of Focus Groups:

A Manual for the Use of Focus Groups Susan Dawson, Lenore Manderson, Veronica L. Tallo, 1993 **Focus Group Methodology** Pranee Liamputtong, 2011-03-11 Focus Group Methodology is an introductory text which leads readers through the entire process of designing a focus group study from conducting interviews to analysing data and presenting the findings. It also includes discussions on cross cultural and virtual focus group. Liamputtong presents clear practical advice in simple terms which will be appropriate for undergraduate and postgraduate students who are undertaking research making this an ideal starter text for anyone new to focus group research. Like her previous book *Researching the Vulnerable* Liamputtong's latest work pays close attention to research ethics and will also be of great interest to researchers who are working with different social groups such as women, men, older people, children and ethnic groups and anybody who is engaging in cross cultural research. Illustrated with case studies and examples throughout this is a perfect introduction to focus group methods for students and new researchers alike. *Focus Groups* Richard A. Krueger, 2014-08-14 This updated edition of *Focus Groups: A Practical Guide for Applied Research* walks readers step by step through the how-tos of conducting focus group research. Using an engaging straightforward writing style, authors Richard A. Krueger and Mary Anne Casey draw on their many years of hands-on experience in the field to cut through theory and offer practical guidance on every facet of the focus group process including tips for avoiding problems and pitfalls. The Fifth Edition is updated with the latest research and technological innovations and includes new coverage on planning with analysis in mind, creating conversational questions that have the potential for producing unique and valuable insights, the art of hosting a focus group, common sense thinking about reporting, more efficient strategies for planning the study and emerging areas of focus group research such as conducting cross cultural, international and Internet focus groups. Krueger and Casey's book does a magnificent job of incorporating both theoretical and practical approaches to the study of focus groups. It is the only hands-on book which explores the process of focus group research. Theresa Carilli, Purdue University, Calumet. [The Practical Handbook and Guide to Focus Group Research, Second Edition](#) Thomas L. Greenbaum, 1993-03-08 In 1992 more than 125 000 focus groups randomly selected individuals led by a moderator whose discussion of a particular product provides market data for the manufacturer will be held in the U.S. Greenbaum, who has worked with focus groups for over 20 years, here shares the latest information on conducting them effectively. [The Focus Group Research Handbook](#) Holly Edmunds, 2000-05-22 The Focus Group Research Handbook is a comprehensive guide to contracting with a market research vendor to create a customized focus group study for your business or organization. Author Holly Edmunds thoroughly explains and simplifies the methodology of focus group studies and comprehensively outlines the steps you'll need to follow to implement and then analyze focus group research. From designing research vendor questionnaires to selecting an effective moderator, from analyzing results to turning those results into workplace gains, this book will provide you with all the tools and tips you'll
