Theresa Breining, Jack J. Phillips, 2008-01-14 The Phillips ROI Methodology™ utilizes five levels of evaluation which are essential in determining the return on investment At Level 1 Reaction and Planned Action attendee and stakeholder satisfaction from the meeting can be measured Almost all organizations evaluate at Level 1 usually with a generic end of meeting questionnaire While this level of evaluation is important as a stakeholder satisfaction measure a favorable reaction does not ensure that attendees have acquired new skills knowledge opinions or attitudes from the meeting At Level 2 Learning measurements focus on what participants learned during the meeting using tests skill practices role plays simulations group evaluations and other assessment tools A learning check is helpful to ensure that attendees have absorbed the meeting material or messages and know how to use or apply it properly It is also important at this level to determine the quantity and quality of new professional contacts acquired and whether existing professional contacts were strengthened due to the meeting However a positive measure at this level is no guarantee that what was learned or whether the professional contacts acquired will be used on the job At Level 3 Job Applications a variety of follow up methods can be used to determine if attendees applied on the job what they learned or acquired at the meeting The frequency and use of skills are important measures at Level 3 While Level 3 evaluations are important to gauge the success of the meeting it still does not guarantee that there will be a positive business impact in the organization or for the attendee At Level 4 Business Results the measurement focuses on the actual business results achieved by meeting participants as they successfully apply the meeting material or messages Typical Level

4 measures include output sales quality costs time and customer satisfaction Although the meeting may produce a measurable business impact there is still a concern that the meeting may cost too much At Level 5 Return on Investment this ultimate level of measurement compares the monetary benefits from the meeting with the fully loaded meeting costs as expressed in the ROI formula All levels of evaluation must be conducted in order to determine the ROI of a meeting or event The data collected should show a chain of impact occurring through the levels as the skills and knowledge learned Level 2 are applied on the job Level 3 to produce business results Level 4 *Resources in Education* ,1997 *The Education Index* ,1991 **Journal of the Society of Chemical Industry** Society of Chemical Industry (Great Britain),1918
