The Ismailis in the Middle Ages Shafique N. Virani, 2007-04-19 None of that people should be spared not even the babe in its cradle With these chilling words the Mongol warlord Genghis Khan declared his intention to destroy the Ismailis one of the most intellectually and politically significant Muslim communities of medieval Islamdom The massacres that followed convinced observers that this powerful voice of Shi i Islam had been forever silenced Little was heard of these people for centuries until their recent and dramatic emergence from obscurity Today they exist as a dynamic and thriving community established in over twenty five countries Yet the interval between what appeared to have been their total annihilation and their modern seemingly phoenix like renaissance has remained shrouded in mystery Drawing on an astonishing array of sources gathered from many countries around the globe *The Ismailis in the Middle Ages A History of Survival A Search for Salvation* is a richly nuanced and compelling study of the murkiest portion of this era In probing the period from the dark days when the Ismaili fortresses in Iran fell before the marauding Mongol hordes to the emergence at Anjudan of the Ismaili Imams who provided a spiritual centre to a scattered community this work explores the motivations passions and

presumptions of historical actors With penetrating insight Shafique N Virani examines the rich esoteric thought that animated the Ismailis and enabled them to persevere A work of remarkable erudition this landmark book is essential reading for scholars of Islamic history and spirituality Shi ism and Iran Both specialists and informed lay readers will take pleasure not only in its scholarly perception but in its lively anecdotes quotations of delightful poetry and gripping narrative style This is an extraordinary book of historical beauty and spiritual vision *Surviving the Mongols* Nadia Eboo Jamal,2002-07-26 The Mongol invasion of Iran in the thirteenth century was a catastrophe for all its inhabitants For the Persian Ismailis in particular it put an end to their political aspirations and independent existence for many centuries It has been held by many historians that subsequent to the fall of the central Ismaili fortress of Alamut to the Mongols the community was virtually extirpated from the region and its institutional network dismantled until its revival in the sixteenth century under the Safavid dynasty Such an expansive view of post Alamut Ismailism is questioned by this study which examines the poetic writings of Nizari Quhistani one of the few Ismaili authors who survived the Mongol invasion and whose works are accessible today The evidence of Nizari s writings demonstrate that while the Ismaili community was seriously impaired its organizational structure and internal coherence continued to operate in different forms through the Mongol period of Persian history

Ethics Aryn Sajoo, 2012-05-15 I B Tauris in association with the Institute of Ismaili Studies Socrates famously said that the unexamined life is not worth living In keeping with this dictum taking ethics seriously means engaging with the real world where the human sense of right and wrong is daily tested At their best all faith traditions are challenged by such testing and if faith inspired ethics are thought to govern the whole of life their guiding values need constantly to be interpreted by the believer to achieve a practical result In the Muslim tradition this is what the Qur'an really amounts to a call to strive for belief with a social conscience For fourteen centuries Muslim scholars have grappled with the implications of that call in matters of law social practice and theology And in our own time the quests for civil society and the rule of law have much to do with the response given to these ethical questions A Companion to Muslim Ethics explores Islam's core conception of the good shared with other great traditions Leading experts examine issues such as gender equality nonviolence dispute resolution the environment health and finance The volume will appeal to all those interested in how reason faith and circumstance shape difficult moral choices in an increasingly globalised world The Oxford Handbook of Applied Ethnomusicology Svanibor Pettan, Jeff Todd Titon, 2015 Applied studies scholarship has triggered a not so quiet revolution in the discipline of ethnomusicology The current generation of applied ethnomusicologists has moved toward participatory action research involving themselves in musical communities and working directly on their behalf The essays in The Oxford Handbook of Applied Ethnomusicology edited by Svanibor Pettan and Jeff Todd Titon theorize applied ethnomusicology offer histories and detail practical examples with the goal of stimulating further development in the field The essays in the book all newly commissioned for the volume reflect scholarship and data gleaned from eleven countries by over twenty contributors Themes and locations of the research discussed encompass all world continents The authors present case studies encompassing multiple places other than that discuss circumstances within a geopolitical unit either near or far Many of the authors consider marginalized peoples and communities others argue for participatory action research All are united in their interest in overarching themes such as conflict education archives and the status of indigenous peoples and immigrants A volume that at once defines its field advances it and even acts as a large scale applied ethnomusicology project in the way it connects ideas and methodology The Oxford Handbook of Applied Ethnomusicology is a seminal contribution to the study of ethnomusicology theoretical and applied *Public Ethnomusicology, Education, Archives, & Commerce* Svanibor Pettan, Jeff Titon, 2019-02-20 The seven ethnomusicologists who contributed to this volume discuss the role and impact of applied ethnomusicology in a variety of public and private sectors including the commercial music industry archives and collections public folklore programs and music education programs at public schools Public Ethnomusicology Education Archives and Commerce is the third of three paperback volumes derived from the original Oxford Handbook of Applied Ethnomusicology The Handbook can be understood as an applied ethnomusicology project as a medium of getting to know the thoughts and experiences of global ethnomusicologists of enriching general knowledge and understanding about ethnomusicologies and

applied ethnomusicologies in various parts of the world and of inspiring readers to put the accumulated knowledge understanding and skills into good use for the betterment of our world

The End of Certainty Professor Stephen Chan, 2013-07-04 The End of Certainty is a magical realist book on world politics Stephen Chan takes the reader on a rollercoaster ride through how we can establish a new kind of international relations and construct a common future for the planet Chan argues that the certainties of singular traditions of philosophy have failed to help us understand power shifts and struggles in an endlessly diverse world Chan argues that fusing different strands of Western Eastern religious and philosophical thought is far more likely to help us move forward amidst uncertainty In doing so he takes us on a journey from the battlefields of Eritrea to the Twin Towers via the Book of Job Clausewitz Fanon and Wahabism You'll never think about international politics in quite the same way again

The World of Persian Literary Humanism Hamid Dabashi, 2012-11-20 Humanism has mostly considered the question What does it mean to be human from a Western perspective Dabashi asks it anew from a non European perspective in a groundbreaking study of 1400 years of Persian literary humanism He presents the unfolding of this vast tradition as the creative and subversive subconscious of Islamic civilization

The Afghan-Central Asia Borderland Suzanne Levi-Sanchez, 2016-07-15 Based on extensive long term fieldwork in the borderlands of Afghan and Tajik Badakhshan this book explores the importance of local leaders and local identity groups for the stability of a state's borders and ultimately for the stability of the state itself It shows how the implantation of formal institutional structures at the border a process supported by United Nations and other international bodies can be counterproductive in that it may marginalise local leaders and alienate the local population thereby increasing overall instability The study considers how in this particular borderland where trafficking of illegal drugs weapons and people is rampant corrupt customs and border personnel and imperfect new institutional arrangements contributed to a complex mix of oppression hidden protest and subtle resistance which benefitted illicit traders and hindered much needed humanitarian work The book relates developments in this region to borderlands elsewhere especially new borders in the former Soviet bloc and argues that local leaders and organisations should be given semi autonomy in co ordination with state border forces in order to increase stability and the acceptance of the state
