of Chemistry* Leo J. Malone,Theodore Dolter,2008-12-03 Engineers who need to have a better understanding of chemistry will  
benefit from this accessible book It places a stronger emphasis on outcomes assessment which is the driving force for many  
of the new features Each section focuses on the development and assessment of one or two specific objectives Within each  
section a specific objective is included an anticipatory set to orient the reader content discussion from established authors  
and guided practice problems for relevant objectives These features are followed by a set of independent practice problems  
The expanded Making it Real feature showcases topics of current interest relating to the subject at hand such as chemical  
forensics and more medical related topics Numerous worked examples in the text now include Analysis and Synthesis  
sections which allow engineers to explore concepts in greater depth and discuss outside relevance      **CLASS 11**
