The Old Bailey Theresa Murphy,2011-10-14 This is the story of an arena of crime and degradation of infamy and human suffering It is the history of the Old Bailey an institution as flawed as all man made attempts at justice are doomed to be In the beginning there was barbarity and injustice The court was packed with a restless muttering mob eager for the verdicts of Guilty so they could enjoy public executions hurling abuse and missiles at those with

the noose around their neck Today we fool ourselves that we have evolved beyond barbarism but are made uneasy by the continuing exposure of miscarriage of justice If we use the Old Bailey as a yardstick it is possible to argue that mankind has not made much progress through the centuries In these pages we tour the courts of long ago meeting the Dracula garbed court chaplains drunken brutal judges and cold blooded hangmen With wit and skill Theresa Murphy brings to life a cast of hundreds from the well known to the less infamous who together make up the harrowing history of the Old Bailey

International Brand Management of Chinese Companies Sandra Bell, 2008-03-29 China is certainly doing its best to keep the world mesmerized by its economic achievements The Chinese economic growth story that begun 30 years ago has in terms of dynamics and duration long since surpassed all those economic miracles which have brought Germany Japan and the South East Asian Tigers into the top league of the industrialized world The rapid expansion of the Chinese economy has gone along with a fledgling re integration of China into the global economic system In the course of the last 30 years China has become a major player in the global economy and today is on a trajectory towards even greater prominence In recent years the Chinese economy seems to have reached an important threshold line of economic development and global integration In the first quarter century of reform and global opening Chinese enterprises have been largely confined to a passive role in the global division of labor Foreign enterprises as the proprietors of greatly superior business models production technologies management models as well as very competitively established brands have been integrating Chinese players in their value chains and global operations Lacking the necessary production technologies products as well as marketing knowledge to successfully dress OECD consumers Chinese enterprises have been hardly able to enter the global markets without such guidance Now this constellation is changing Music, Branding and Consumer Culture in Church Tom Wagner, 2019-10-16

Starting as a single congregation in Australia Hillsong Church now has campuses worldwide releases worship music that sells millions of albums and its ministers regularly appear in mainstream media So how has a single church gained such international prominence This book offers an ethnographic exploration of the ways in which music and marketing have been utilised in the pursuit and production of spiritual experience for members of Hillsong Church An experience that has proven to be incredibly popular The main theme of this book is that marketing specifically branding is not just a way to sell religion but rather an integral part of spiritual experience in consumer society Focussing on the London Hillsong church as a case study the use of its own music in tandem with strong branding is shown to be a coherent and reproductive method of organizing patterning and communicating information The church provides the branded material and cultural context in which participants sacred experience of self unfolds However this requires participants to do the work to properly understand and ultimately embody the values associated with the brand This book raises important questions about the role of branding and music in forming modern sacred identities As such it will be of great interest to scholars of Religious Studies
