Kukulcan S Realm Urban Life At Ancient Mayapán:

Kukulcan's Realm Marilyn Masson, Carlos Peraza Lope, 2014-11-15 Kukulcan's Realm chronicles the fabric of socioeconomic relationships and religious practice that bound the Postclassic Maya city of Mayapán's urban residents together for nearly three centuries. Presenting results of ten years of household archaeology at the city including field research and laboratory analysis, the book discusses the social, political, economic, and ideological makeup of this complex urban center. Masson and Peraza Lope's detailed overview provides evidence of a vibrant market economy that played a critical role in the city's political and economic success. They offer new perspectives from the homes of governing elites, secondary administrators, affluent artisans, and poorer members of the service industries. Household occupational specialists depended on regional trade for basic provisions that were essential to crafting industries, sustenance, and quality of life. Settlement patterns reveal intricate relationships of households with neighbors, garden plots, cultivable fields, thoroughfares, and resources. Urban planning endeavored to unite the cityscape and to integrate a pluralistic populace that derived from hometowns across the Yucatán peninsula. New data from Mayapán, the pinnacle of Postclassic Maya society, contribute to a paradigm change regarding the evolution and organization of Maya society in general and make Kukulcan's Realm a must read for students and scholars of the ancient Maya and Mesoamerica.

Before Kukulkán Vera Tiesler, Andrea Cucina, Travis W. Stanton, David A. Freidel, 2017-11-28 This volume illuminates human lifeways in the northern Maya lowlands prior to the rise of Chichén Itz'. This period and area have been poorly understood on their own terms, obscured by scholarly focus on the central lowland Maya kingdoms. Before Kukulkán is anchored in three decades of interdisciplinary research at the Classic Maya capital of Yaxun, located at a contentious

crossroads of the northern Maya lowlands Using bioarchaeology mortuary archaeology and culturally sensitive mainstream archaeology the authors create an in depth regional understanding while also laying out broader ways of learning about the Maya past Part 1 examines ancient lifeways among the Maya at Yaxun while part 2 explores different meanings of dying and cycling at the settlement and beyond ancestral practices royal entombment and desecration and human sacrifice The authors close with a discussion of the last years of occupation at Yaxun and the role of Chich n Itz in the abandonment of this urban center Before Kukulc n provides a cohesive synthesis of the evolving roles and collective identities of locals and foreigners at the settlement and their involvement in the region s trajectory Theoretically informed and contextualized discussions offer unique glimpses of everyday life and death in the socially fluid Maya city These findings in conjunction with other documented series of skeletal remains from this region provide a nuanced picture of the social and biocultural dynamics that operated successfully for centuries before the arrival of the Itz
