Imagining Iberia in English and Castilian Medieval Romance Emily Houlik-Ritchey, 2023-02-06 An innovative comparative study of Middle English and medieval Castilian romance

Encyclopedia of Latin American Theater Eladio Cortés, Mirta Barrea-Marlys, 2003-12-30 Latin American culture has given birth to numerous dramatic works though it has often been difficult to locate information about these plays and playwrights This volume traces the history of Latin American theater including the Nuyorican and Chicano theaters of the United States and surveys its history from the pre Columbian period to the present Sections cover individual Latin American countries Each section features alphabetically arranged entries for playwrights independent theaters and cultural movements The volume begins with an overview of the development of theater in Latin America Each of the country sections begins with an introductory survey and concludes with copious bibliographical information The entries for playwrights provide factual information about the dramatist's life and works and place the author within the larger context of international literature Each entry closes with a list of works by and about the playwright A selected general bibliography appears at the end of the volume

Imaging The Great Puerto Rican Family Hilda Lloréns, 2014-10-30 In this book Hilda Lloréns offers a ground breaking study of images photographs postcards paintings posters and films about Puerto Rico and Puerto Ricans made by American and Puerto Rican image makers between 1890 and 1990 Through illuminating discussions of artists images and social events the book offers a critical analysis of the power laden cultural and historic junctures imbricated in the creation of representations of Puerto Rico and Puerto Ricans by Americans outsiders and Puerto Ricans insiders during an historical epoch marked by the twin concepts of modernization and progress The study excavates the ways in which colonial power and resistance to it have shaped representations of Puerto Rico and its people Hilda Lloréns demonstrates how nation race and gender figure in representation and how these representations in turn help shape the discourses of nation race and gender *Imaging The Great Puerto Rican Family* masterfully illustrates that as significant actors in the shaping of national conceptions of history image makers have created iconic symbols deeply enmeshed in an emotional aesthetics of nation The book proposes that images as important conveyers of knowledge and information are a fertile data site At the same time Lloréns underscores how colonial modernity turned global the conceptual framework informing the analysis not only calls attention to the national and global networks in which image makers have been a part of and by which they have been influenced but highlights the manners by which technologies of imaging and seeing have been prime movers as well as critics of modernity

Education and the Politics of Becoming Diana Masny, David Cole, 2020-10-28 This collection examines education in the light of a politics of becoming It takes a non hierarchical transdisciplinary approach challenging the macropolitics of pre established governmental and economic agendas

for education Drawing on the philosophy of Gilles Deleuze and Felix Guattari the contributors consider questions such as how education might engage a politics of becoming and how education and becoming function in a society of control Since Deleuze and Guattari contend that a society is defined by its becomings its transformations this collection asks how education itself a process in becoming may contribute collective creations to a society in continual flux The chapters bring theory and praxis together deploying power affect cartography space relationality assemblage and multiple literacies in order to experiment with music art language teacher education curriculum and policy studies This collection is an innovative resource creating an encounter with the macropolitics of education and altering teaching learning evaluation and curriculum This book was originally published as a special issue of Discourse Studies in the Cultural Politics of Education Literary Translation Ida Klitgård, 2006 This volume of *Angles on the English Speaking World* discusses the intriguing inter relatedness between the concepts and phenomena of world literature and translation The term *worlding* presented by Strur Eysteinnsson in this collection is coined by Sarah Lawell in her book *Reading World Literature* 1994 where it denotes the reader's pleasurable reading of the meeting of worlds in a literary translation i.e. the meeting of the different cultural environments embodied in a translation from one language into another Through such reading the reader in fact participates in creating true world literature This is a somewhat unorthodox conception of world literature conventionally defined as great literature shelved in a majestic canonical library In the opening article sparking off the theme of this collection Eysteinnsson asks Which text does the concept of world literature refer to It can hardly allude exclusively to the original which the majority of the work's readers may never get to know On the other hand it hardly refers to the various translations as seen apart from the original It seems to have a crucial bearing on the border between the two and on the very idea that the work merits the move across this linguistic and cultural border to reside in more than two languages Picking up on this question at issue all the essays in this collection throw light on the problematic mechanics of cultural encounters when reading the world in literary translation i.e. in the texts themselves as well as in the ways in which they have become institutionalised as world literature

Family Matters Marisel C. Moreno, 2012-08-29 Adopting a comparative and multidisciplinary approach to Puerto Rican literature Marisel Moreno juxtaposes narratives by insular and U.S. Puerto Rican women authors in order to examine their convergences and divergences By showing how these writers use the trope of family to question the tenets of racial and social harmony an idealized past and patriarchal authority that sustain the foundational myth of *la gran familia* she argues that this metaphor constitutes an overlooked literary contact zone between narratives from both sides Moreno proposes the recognition of a transinsular corpus to reflect the increasingly transnational character of the Puerto Rican population and addresses the need to broaden the literary canon in order to include the diaspora Drawing on the fields of historiography cultural studies and gender studies the author defies the tendency to examine these literary bodies independently of one another and therefore aims to present a more nuanced and holistic vision of this literature **Chicano Periodical Index**

the migrant's own journey beginning outside Spanish territory continuing across the border either at the barbed wire fences of Ceuta and Melilla or the waters of the Atlantic or the Strait of Gibraltar and then considers what happens to migrants after they arrive and settle in Spain. Each chapter analyzes one of these stages in order to illustrate the complexity of contemporary Spanish identity. This examination of Spanish culture shows how Spain is evolving into a new space of imagination, one that can no longer be defined without the migrant, a space in which there is no unified identity but rather a new self-understanding is being born. Vega Durán both places Spain in a larger European context and draws attention to some of the features that from a comparative perspective make the Spanish case interesting and often unique. She argues that Spain cannot be understood today outside the Transatlantic and Mediterranean spaces, both real and imaginary, where Spaniards and migrants meet. *Emigrant Dreams: Immigrant Borders* offers a timely study of present-day Spain and makes an original contribution to the vibrant debates about multiculturalism and nation formation that are taking place. *The Rough Guide to Guatemala* Iain Stewart, Mark Whatmore, 2002 Detailed wilderness treks, volcano climbs and tours of the Mayan ruins are profiled in this lively guide of Guatemala. 38 maps, 24-page full-color section. *The Handbook of Chicana/o Psychology and Mental Health* Roberto J.
