

2. Mark the "A" and "B" drill holes and the four corners. Join the corners using the edge of the template as a straight edge.

3. Drill the mounting holes and cut out the rectangular hole.

4. Secure the mounting strips to the panel using two of the six fillister-head screws provided.

In the hardware package there are 6 fillister-head screws  $\frac{3}{4}$  inches long and 6 fillister-head screws  $1\frac{1}{4}$  inches long. The different length screws are for varying panel thicknesses. For panels under  $\frac{1}{2}$ -inch thick, use the  $\frac{3}{4}$ -inch screws.

Insert a screw in the center holes ("B" holes). Tighten so that the screw pulls into the wood half the thickness of its head.

5. Secure the installation brackets to the rectangular cutout using the four remaining fillister-head screws in the hardware package.

6. Place the template over the four mounting screws. The mounting screws should be centered in the "A" and "B" holes on the template. The sides of the PANLOC brackets should match the vertical dash lines on the template. If necessary push with a suitable tool to align. The edge of the screw heads also should just be tangent with the edge of the PANLOC brackets.

7. Insert the power cord through the opening. Slide the unit in till it stops at the adjust position.

Flint River User's Guide Joe Cook, 2017-04-01 The Flint River is arguably Georgia's most beautiful river and in terms of the terrain through which it flows on its 344 mile journey there is not another Georgia river that exposes the river traveler to more diverse vistas. From the bottomland swamps in its headwaters through soaring views of Pine Mountain and rapids in the Piedmont to breathtakingly clear springs in the Coastal Plain the Flint is filled with surprises at virtually every bend. The Flint River User's Guide the fourth in a series of Georgia River Network recreational guidebooks is a portal to adventure on this spectacular river. The book brings to life the river's cultural and natural heritage while providing all the details needed to get out on the river and enjoy it via canoe kayak paddleboard or motorized vessel. Whether in your canoe on the river or on your couch at home the Flint River User's Guide will immerse you in the story of the river which also happens to be the story of those communities along its course from the headwaters in the suburbs of metro Atlanta to the backwaters of Lake Seminole near the Florida state line. Features: An introduction and overview of the river. Chapters describing each river section with detailed maps and notes on river access and points of interest. A compact natural history guide featuring species of interest found along Georgia's rivers. Notes on safety and boating etiquette. A fishing primer. Notes on organizations working to protect the river. Printed on waterproof paper. User's Guide to the Center for Population, Health & Nutrition United States. Agency for International Development. The Chattahoochee River User's Guide traces the 430 mile course of the Hooch from its headwaters at a spring on Coon Den Ridge near Jacks Knob in northeastern Georgia to its confluence with the Flint River where they form the Apalachicola River. The Georgia River Network guides provide many little known facts about Georgia's rivers bring to life the river's cultural and natural history and present river issues in an immersive and engaging manner that will inspire users to help protect their local waterways. The guide includes 200 color photographs 32 user friendly maps that reveal the towns roads entry points bridges public lands parks and other landmarks along the river's course from the southern Blue Ridge Mountains to the Georgia Florida border.
