The Teaching of English in the Universities of England Raymond Wilson Chambers, 1922 Regulations and Courses for Internal Students University of London, 1916 **The Welsh Outlook**, 1915 The Aberdeen University Calendar University of Aberdeen, 1920 **Calendar** University of Aberdeen, 1905 *English Studies in India* Banibrata Mahanta, Rajesh Babu Sharma, 2018-11-03 This volume is a collection of scholarly papers that explore the complex issues concerning English Studies in the present Indian context The discussions in this volume range from historical perspectives to classroom specific pedagogies from sociological and political hierarchies to the dynamics of intellectual development in the English language environment Interrogating both policy and practice pertaining to English Studies in the context of Indian society culture history literature and governance the chapters seek to formulate contemporary perspectives to these debates and envision alternative possibilities Since the introduction of English to India more than 2 centuries ago the language has transmuted the very fabric of Indian society culture history literature and governance The idea of India cannot be conceived in its entirety without taking into consideration the epistemological role that English has played in its formation The present globalized world order has added dimensions to English Studies which are radically different from those of India's colonial and postcolonial past It is therefore imperative that the multitudinous shades and shadows of the discipline be re-examined with inputs drawn from the present context This volume is for scholars and researchers of English literature and language studies linguistics and culture studies and others interested in exploring new paradigms of engagement with the disciplinary formulation of English Studies in India *London University Guide*, 1903 **Up at Oxford** Ved Mehta, 2020-12-03 Book 2 in Ved Mehta's *Continents of Exile* series Nearly 50 years in the making *Continents of Exile* is one of the great works of twentieth century autobiography the epic chronicle of an Indian family in the twentieth century From 1930s India to 1950s Oxford and literary New York in the 1960s 80s this is the story of the post colonial twentieth century as uniquely experienced and vividly recounted by Ved Mehta After studying in the United States Mehta blind since childhood achieves his dream of enrolling at the University of Oxford a place that has consumed his imagination ever since he was a small boy growing up under the British Raj In *Up at Oxford* Mehta recalls the nuances of his conversations the range of his youthful emotions and the sounds smells and tastes of university life Along the way he draws memorable portraits of among others novelists poets scholars and peers **English Studies in Indian Universities** Ravindra Baburao Tasildar, 2019-01-22 Right from its formal introduction in India in 1835 through Thomas B Macaulay's *Minute* English has been intrinsically linked with the employment prospects of Indians During their regime the British promoted English education to fulfil the requirement of English knowing Indians for administrative purposes Owing to globalization the last few years have witnessed the opening up of thousands of lucrative job opportunities for graduates proficient in English English has gained importance in India as the language of opportunities In colonial India English education was a passport to government jobs while in the twenty first

century proficiency in English is essential for private sector jobs This book examines the development of curricula in English in Indian universities vis a vis the needs of second language learners studying in Special English programmes of Bachelor of Arts BA It also reflects on how globalization has strengthened the connection between English and employment *A Guide to English Courses in the Universities* English Association,1965 **The New Zealand University Calendar** University of New Zealand,1917 *The Changing Status of Women in West Bengal, 1970-2000* Jasodhara Bagchi,Sarmistha Dutta Gupta,2005-01-24 This important and comprehensive volume vividly depicts the current status of women and girls in West Bengal The analysis has been conducted in the framework of the socio economic and politico cultural ambience that has characterized the state in recent decades The contributors highlight both areas of strength and vulnerability and clearly demonstrate that the status of women cannot be conceived as monolithic or static it has many facets and is in a state of constant flux The analysis of macro data is supported by revealing micro studies based on field surveys and an examination of cultural trends *English Mechanic and Mirror of Science and Art* ,1910 **The Teaching of English in Schools** David Shayer,2013-04-15 Originally published in 1972 1900 1970 saw extensive changes in the teaching of English in schools The volume studies English instruction as it developed at junior and secondary level over this period Using textbooks method books Board and Ministry Reports and other contemporary opinion the book examines the basic questions arising from this historical survey Whilst the main emphasis is on changes in actual classroom methods the volume also examines the wider social pressures which have modified the school system in the UK as well as English as a subject in that system Glasgow University Calendar University of Glasgow,1905 **Literature and Learning** Stefan Collini,2025-03-05 The study and teaching of English literature is generally regarded as one of the central disciplines in the modern university yet for much of its history it struggled to gain academic legitimacy and was frequently derided as a soft option Its early professors responded by emphasizing its scholarly character foregrounding philology and literary history in ways that marked the syllabus far into the twentieth century Stefan Collini provides here the first full account of the discipline s development from its late eighteenth century beginnings up to the early 1960s Paying special attention to institutional settings he challenges numerous assumptions about the character of universities in the nineteenth and early twentieth centuries From the detailed exploration of syllabuses exam papers and other institutional records the impact of literary criticism is revealed to be later and more partial than is commonly assumed Rather than seeing the early teaching of English literature as a substitute for religion or a means to soften class conflict Collini emphasizes the role of ideals of learnedness and scholarship as well as of external factors such as opportunities for employment in the civil service and secondary school teaching There are full discussions of the parts played by such figures as John Churton Collins A C Bradley George Saintsbury and Walter Raleigh together with sceptical analyses of the decisive significance usually attributed to Matthew Arnold T S Eliot I A Richards and F R Leavis Separate chapters are devoted to neglected aspects of the story such as the role of Classics the importance of the subject for

women's higher education and the connections with English teaching in schools Drawing on extensive use of institutional archives and records as well as the writings of contemporary participants the book offers a vivid and wide ranging history of English as discipline and its centrality across academic literary cultural and educational life over the past two hundred years as well as a resounding testament to its continued importance and relevance today Report of the Director of Public Instruction on the Progress of Education in the Bombay Presidency Bombay (Presidency).
