Scott,Tiina Sotkasiira,2016-07-01 The collapse of the Soviet Union has had profound and long lasting impacts on the societies of Eastern Europe the South Caucasus and Central Asia impacts which are not yet fully worked through changes in state society relations a comprehensive reconfiguration of political economic and social ties the resurgence of regional conflicts frozen during the Soviet period and new migration patterns both towards Russia and the European Union At the same time the EU has emerged as an important player in the region formulating its European Neighbourhood Policy and engaging neighbouring states in a process of cross border regional co operation This book explores a wide range of complex and contested questions related to borders security and migration in the emerging European Neighbourhood which includes countries of the Caucasus and Central Asia as well as the countries which immediately border the EU Issues discussed include new forms of regional and cross border co operation new patterns of migration and the potential role of the EU as a stabilizing external force The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license **Discrimination based on Colour, Ethnic Origin, Language, Religion and Belief in Turkey's Education System** Nurcan Kaya,2015-10-27 The Turkish government is urged to make a fundamental shift in its approach to education by Minority Rights Group International MRG in a new report A long standing focus on state building has been supplemented by increasing emphasis on religious teaching Both feature strongly in the education system in Turkey making schools a focus of discrimination The report

Discrimination based on Colour Ethnic Origin Language Religion and Belief in Turkey's Education System reveals evidence of discrimination of minority groups and suggests comprehensive reforms to effectively ensure equality. The national education system which for decades aimed to create young Turkish nationalists has in recent years become a vehicle for raising young religious Turkish nationalists, says Nurcan Kaya, Turkey Coordinator of Minority Rights Group International. Religious education is compulsory from grade four in primary schools. While some information on world religions has been introduced, the emphasis remains on teaching Sunni Muslim religious practices. Children of Jewish and Christian families may apply to opt out, but the process can be cumbersome and in many schools alternatives are not provided for them. Non-Muslim students who have opted out can still find themselves having to remain in the religious instruction class or alternatively having to wander in the school corridor making them vulnerable to taunts from pupils and even teachers. The opt out possibility is still not available to children of other minorities. Another issue is mother tongue education. In 2012 a new elective on the living languages and dialects in Turkey was introduced but due to various limitations minorities remain marginalised. Others in the education system. Subsequent to the 2012 reform, the report monitors discrimination in the formal education system in the period of the academic year of 2014-2015. The findings are based on the field work of the Monitoring Discrimination in Education Network, an alliance of 16 organizations working in Turkey. The report compiles numerous cases of discrimination based on language, religion, ethnicity, skin colour and the level of income. In order to bring about a fundamental solution to these problems in the education system, the government must prioritise developing an approach that sees all groups as equal and that responds to demands for rights based on such an understanding of equality, says Kaya. The report highlights that Turkey has no anti-discrimination law or an equality commission to which victims of discrimination can apply. The existing legislation contains no effective and accessible means of judicial remedies or compensation. Therefore many discriminatory practices are not reported to school administrations. The entire education system is based on Turkishness. Non-Turkish groups are either not referred to or referred in a negative way, says Kaya. Education system has played a significant role in deepening conflict in society. The positive representation of other groups in the education system would contribute to social peace and harmony. In order to resolve the many problems in the education system, that the current approach causes the overall aim of government education policy should be cleared of ideological references and the protection of children's best interests and the right to education in line with international standards should be considered its fundamental goal, says the report.

The Rise of English Rosemary Salomone, Rosemary C. Salomone, 2022. A sweeping account of the global rise of English and the high stakes politics of language. Spoken by a quarter of the world's population, English is today's lingua franca, its common tongue. The language of business, popular media and international politics, English has become commodified for its economic value and increasingly detached from any particular nation. This meteoric rise of English has many obvious benefits to communication. Tourists can travel abroad with greater ease. Political leaders can directly engage their counterparts.

Researchers can collaborate with foreign colleagues Business interests can flourish in the global economy But the rise of English has very real downsides as well In Europe imperatives of political integration and job mobility compete with pride in national language and heritage In the United States and England English isolates us from the cultural and economic benefits of speaking other languages And in countries like India South Africa Morocco and Rwanda it has stratified society along lines of English proficiency In *The Rise of English* Rosemary Salomone offers a commanding view of the unprecedented spread of English and the far reaching effects it has on global and local politics economics media education and business From the inner workings of the European Union to linguistic battles over influence in Africa Salomone draws on a wealth of research to tell the complex story of English and ultimately to argue for English not as a force for domination but as a core component of multilingualism and the transcendence of linguistic and cultural borders *Always at War* Thomas Colley, 2019-08-01

Compelling narratives are integral to successful foreign policy military strategy and international relations Yet often narrative is conceived so broadly it can be hard to identify The formation of strategic narratives is informed by the stories governments think their people tell rather than those they actually tell This book examines the stories told by a broad cross section of British society about their country's past present and future role in war using in depth interviews with 67 diverse citizens It brings to the fore the voices of ordinary people in ways typically absent in public opinion research *Always at War* complements a significant body of quantitative research into British attitudes to war and presents an alternative case in a field dominated by US public opinion research Rather than perceiving distinct periods between war and peace British citizens see their nation as so frequently involved in conflict that they consider the country to be continuously at war At present public opinion appears to be a stronger constraint on Western defense policy than ever Dimensions of Marketisation in Higher Education Peter John, Joëlle Fanghanel, 2015-11-06 *Dimensions of Marketisation in Higher Education* is a critical analysis of the various dimensions of marketisation in a global context exploring governance policy financial ethical and pedagogical aspects Bringing together a selection of influential authors who draw on the work of Roger Brown the book is a timely examination of the impact that policies regulating cost entry and practices in higher education can have on universities students and academics This book explores the tensions and dilemmas marketisation brings into the educational environment for academic leaders managers and students arguing that they can be managed through rebalancing the relation between the market and the educational dimensions Key topics include The economics of higher education Students in a marketised environment Regulating a marketised sector Marketisation and higher education pedagogies Universities futures Unveiling nuanced and multifaceted perspectives and providing readers with collective and forward thinking critical analyses *Dimensions of Marketisation in Higher Education* will be an authoritative reference book on policy and practice appealing to higher education leaders managers and scholars worldwide *Scotland's Choices* Iain McLean, 2014-05-30 *Scotland's Choices* now fully revised for the critical last few months before the referendum explains the

choice that Scotland will have to make in September 2014 The authors clearly explain the issues and how each of the options would be put into place

Saudi Maritime Policy Hatim Al-Bisher, Selina Stead, Tim Gray, 2011-09-14 Because marine governance in most countries is sectoral maritime policies are frequently fragmented reactive and even contradictory meaning that marine resources are underutilized and poorly protected To avoid these problems the concept of integrated national maritime policy INMP has been developed This book examines this concept analysing its current application in four countries Australia Canada UK and USA whilst discussing at length how it might be applied to Saudi Arabia Based on extensive fieldwork carried out in Saudi Arabia including interviews with officials in government departments with maritime responsibilities and a survey administered to 230 stakeholders the book offers a unique insight into INMP in the Kingdom The book provides a practical template for developing the political will and civil constituency in Saudi Arabia necessary for the introduction of INMP In setting out in detail its benefits this book could help build the momentum in Saudi Arabia required to implement the concept as well as attract other countries to do the same A significant contribution to the growing literature on ocean governance this book will be of great importance to policy makers and scholars of Middle Eastern studies marine governance and comparative politics

Moscow and Havana 1917 to the Present Mervyn J. Bain, 2018-12-03 This book addresses the relationship between Moscow and Havana in the period from the Russian Revolution through the present i e from November 1917 onwards Its release is particularly timely due to both November 2017 being the 100th anniversary of the Russian Revolution as well as the historic election in Cuba in

April 2018 when Miguel Díaz Canel replaced Raúl Castro as the President of Cuba. Traditionally, Moscow's interest in Cuba has been thought to have been ignited by the Cuban Revolution in January 1959 and ended by the implosion of the Soviet Union in December 1991. This book examines why a bilateral relationship has existed throughout the last century specifically in three distinct periods: 1 from the time of the Russian Revolution until the Cuban Revolution, 2 from January 1959 until December 1991, and 3 the post-Soviet period from 1992 until the present. It also analyzes the questions of what within the relationship drew the two countries together in these three disparate periods when, in only one January 1959 to December 1991, did the relationship exist between two socialist governments. It offers a number of different conclusions, including that although each period of the relationship has its own peculiarities and nuances, a number of commonalities exist between the three eras. Consequently, it is posited that due to these commonalities, the contemporary bilateral relationship remains important for both countries and is likely to continue in its present form for the short to medium term despite the historic change which occurred in Cuba in April 2018.

Culture and Crisis Communication Amiso M. George, Kwamena Kwansah-Aidoo, 2017-08-17. A collection of case studies from nonwestern countries that offers an analysis of the significant role culture plays in crisis communication. *Culture and Crisis Communication* presents an examination of how politics, culture, religion, and other social issues affect crisis communication and management in nonwestern countries. From intense human tragedy to the follies of the rich, the chapters examine how companies, organizations, news outlets, health organizations, technical experts, politicians, and local communities communicate in crisis situations. Taking a wider view than a single country's perspective, the text contains a cross-cultural and cross-country approach. In addition, the case studies offer valuable lessons that organizations that wish to operate or are operating in those cultures can adopt in preparing and managing crises. The book highlights recent crisis events such as Syria's civil war, missing Malaysia Flight MH370, and Japan's Fukushima Daiichi nuclear power plant disaster. Each of the case studies examines how culture impacts communication and responses to crises. Authoritative, insightful, and instructive, this important resource analyzes how nonwestern cultures respond to crises. Covers the role of culture in crisis communication in recent news events. Includes contributions from 18 international authors who provide insight on nonwestern culture and crisis communication. Written for communication professionals, academics, and students. *Culture and Crisis Communication* presents an insightful introduction to the topic of culture and crisis communication and then delves into illustrative case studies that explore intra-cultural and trans-boundary crisis communication.

The G3 Battle Rifle Leroy Thompson, 2019-05-30. During the Cold War, the G3 was one of the world's pre-eminent battle rifles. Developed in France and Spain after 1945, the rifle was produced by the German arms manufacturer Heckler & Koch. Adopted by more than 40 countries and produced on licence by many more, it was widely employed during colonial wars in Africa, insurgencies in Latin America, and conflicts in the Middle East, but perhaps its widest use was in the Iran-Iraq War. Variants of the G3 have also seen substantial usage among Special Forces, including Britain's Special Boat

Service and the US Navy SEALs Semi automatic versions especially the HK91 and HK93 remain popular in the United States and the G3 derived HK11 and HK21 family of light machine guns have also been widely adopted by military and law enforcement units across the world Fully illustrated with specially commissioned artwork this study examines one of the iconic weapons of the Cold War era The Euro Trap Hans-Werner Sinn,2014-07-31 This book offers a critical assessment of the history of the euro its crisis and the rescue measures taken by the European Central Bank and the community of states The euro induced huge capital flows from the northern to the southern countries of the Eurozone that triggered an inflationary credit bubble in the latter deprived them of their competitiveness and made them vulnerable to the financial crisis that spilled over from the US in 2007 and 2008 As private capital shied away from the southern countries the ECB helped out by providing credit from the local money printing presses The ECB became heavily exposed to investment risks in the process and subsequently had to be bailed out by intergovernmental rescue operations that provided replacement credit for the ECB credit which itself had replaced the dwindling private credit The interventions stretched the legal structures stipulated by the Maastricht Treaty which in the absence of a European federal state had granted the ECB a very limited mandate These interventions created a path dependency that effectively made parliaments vicarious agents of the ECB s Governing Council This book describes what the author considers to be a dangerous political process that undermines both the market economy and democracy without solving southern Europe s competitiveness problem It argues that the Eurozone has to rethink its rules of conduct by limiting the role of the ECB exiting the regime of soft budget constraints and writing off public and bank debt to help the crisis countries breathe again At the same time the Eurosystem should become more flexible by offering its members the option of exiting and re entering the euro something between the dollar and the Bretton Woods system until it eventually turns into a federation with a strong political power centre and a uniform currency like the dollar

Communication and Colonialism in Eastern India Nitin Sinha,2014-10-01 Through a regional focus on Bihar between the 1760s and 1880s *Communication and Colonialism in Eastern India* reveals the shifting and contradictory nature of the colonial state s policies and discourses on communication The volume explores the changing relationship between trade transport and mobility in India as evident in the trading and mercantile networks operating at various scales of the economy Of crucial importance to this study are the ways in which knowledge about roads and routes was collected through practices of travel tours surveys and map making all of which benefited the state in its attempts to structure a regime that would regulate undesirable forms of mobility People's Diplomacy Kazushi Minami,2024-03-15 In *People s Diplomacy* Kazushi Minami shows how the American and Chinese people rebuilt US China relations in the 1970s a pivotal decade bookended by Richard Nixon s 1972 visit to China and 1979 normalization of diplomatic relations Top policymakers in Washington and Beijing drew the blueprint for the new bilateral relationship but the work of building it was left to a host of Americans and Chinese from all walks of life who engaged in people to people exchanges After two decades of estrangement and hostility

caused by the Cold War these people dramatically changed the nature of US China relations Americans reimagined China as a country of opportunities irresistible because of its prodigious potential while Chinese reinterpreted the United States as an agent of modernization capable of enriching their country and rejuvenating their lives Drawing on extensive research at two dozen archives in the United States and China People s Diplomacy redefines contemporary US China relations as a creation of the American and Chinese people
