Wallwork, 2016-03-02 Publishing your research in an international journal is key to your success in academia. This guide is based on a study of over 1000 manuscripts and reviewers' reports revealing why papers written by non-native researchers are often rejected due to problems with English usage and poor structure and content. With easy-to-follow rules and tips and examples taken from published and unpublished papers, you will learn how to prepare and structure a manuscript, increase readability, and reduce the number of mistakes you make in English by writing concisely with no redundancy and no ambiguity. Write a title and an abstract that will attract attention and be read; decide what to include in the various parts of the paper: Introduction, Methodology, Discussion, etc. Highlight your claims and contribution, avoid plagiarism, discuss the limitations of your research, choose the correct tenses and style, satisfy the requirements of editors and reviewers. This new edition contains over 40% new material, including two new chapters: stimulating factoids and discussion points both for self-study and in-class use. EAP teachers will find this book to be a great source of tips for training students and for preparing both instructive and entertaining lessons. This book covers key practical and theoretical approaches towards community translation, providing insights into the current state of the field and the latest research trends, guidelines, initiatives, and gaps.
