*Science and Technology 2002* Holt Rinehart & Winston, Holt, Rinehart and Winston Staff, 2002 **Science, Technology, and Society** David D. Kumar, Daryl E. Chubin, 2012-12-06 David D. Kumar and Daryl E. Chubin We live in an information age. Technology abounds: information technology, communication technology, learning technology. As a once popular song went: "Something's happening here, but it's just not exactly clear. The world appears to be a smaller, less remote place. We live in it, but we are not necessarily closely tied to it. We lack a satisfactory understanding of it. So we are left with a paradox. In an information age, information alone will neither inform nor improve us as citizens, nor our democracy, society, or institutions. No improvement will take some effort. It is a heavy burden to be reflective, indeed analytical and disciplined, but only constructively constrained by different perspectives. The science-based technology that makes for the complexity, controversy, and uncertainty of life sows the seeds of understanding in Science, Technology, and Society (STS) as it is known, encompasses a hybrid area of scholarship now nearly three decades old. As D. R. Sarewitz, a former geologist, now congressional staffer, and an author put it: "After all the important and often controversial policy dilemmas posed by issues such as nuclear energy, toxic waste disposal, global climate change, or biotechnology cannot be resolved by authoritative scientific knowledge, instead they must involve a balancing of technical considerations with other criteria that are explicitly non-scientific: ethics, aesthetics, equity, ideology. Trade-offs must be made in light of inevitable uncertainties." Sarewitz 1996, p. 182 **Good Science, Bad Science, Pseudoscience, and Just Plain Bunk** Peter Dämpfle, 2013 We are constantly bombarded with breaking scientific news in the media, but we are almost never provided with enough information to assess the truth of these claims. This book teaches readers how to think like a scientist, to question claims like these more critically. **Holt Science: Teacher's edition** Joseph Abruscato, 1989 **EBOOK: Psychology: The Science of Mind and Behaviour, 4e** Nigel Holt, Andy Bremner, Ed Sutherland, Michael Vliek, Michael Passer, Ronald Smith, 2019-03-01 **EBOOK Psychology: The Science of Mind and Behaviour 4e**
