Project Earth Science Geoff Holt, Nancy W. West, 2011 *Project Earth Science Astronomy Revised 2nd Edition* involves students in activities that focus on Earth's position in our solar system How do we measure astronomical distances How can we look back in time as we gaze across vast distances in space How would our planet be different without its particular atmosphere and distance to our star What are the geometries among Earth the Moon and the Sun that yield lunar phases and seasons Students explore these concepts and others in 11 teacher tested activities *Holt World Geography* Holt Rinehart & Winston, 2007 *Repairing the Climate* L.J. Reinders, 2024-11-01 Climate change is triggered by a too high concentration of greenhouse gases in the air carbon dioxide in particular primarily originating from fossil fuel burning Since such burning will not stop any time soon the concentration will undoubtedly rise further exacerbating climate change There is no escape from this That is where carbon capture comes in direct air capture DAC scrubs the surplus carbon dioxide out of the air for actually lowering this concentration At the same time emission levels must be drastically lowered by fitting point source emitters with carbon capture installations This book sets out the case for such carbon capture which is a must without which the climate cannot be repaired *Holt Science and Technology 2002* Holt Rinehart & Winston, Holt, Rinehart and Winston Staff, 2002 *Climate Change* Bruce E.
