*Less Medicine, More Health* Dr. H. Gilbert Welch, 2015-03-03 A nationally recognized expert describes seven widespread assumptions that encourage excessive ineffective and sometimes harmful medical care for readers of *Overdiagnosed* and Malcolm Gladwell You might think the biggest problem in medical care is that it costs too much Or that health insurance is too expensive too uneven too complicated and gives you too many forms to fill out But the central problem is that too much medical care has too little value Dr H Gilbert Welch is worried about too much medical care He doesn't deny that some people get too little medical care rather that the conventional concern about too little needs to be balanced with a concern about too much too many people being made to worry about diseases they don't have and are at only average risk to get too many people being tested and exposed to the harmful effects of the testing process too many people being subjected to treatments they don't need or can't benefit from The American public has been sold the idea that seeking medical care is one of the most important steps to maintain wellness Surprisingly medical care is not in fact well correlated with good health More medicine does not equal more health in reality the opposite may be true In *Less Medicine More Health* Dr Welch pushes against established wisdom and suggests that medical care can be too aggressive Drawing on his twenty five years of medical practice and research he notes that while economics and lawyers contribute to the excesses of American medicine the problem is essentially created when the general public clings to these powerful assumptions about the value of tests and treatments a number of which are just plain wrong By telling fascinating and occasionally amusing stories backed by reliable data Dr Welch challenges patients and the health care establishment to rethink some very fundamental practices His provocative prescriptions hold the potential to save money and more important improve health outcomes for us all
