

How to Drive a Motorcycle

The Art of
MANLINESS
BY TED SHAPIRO

1. Start the bike by switching the key to the "On" position and either pressing the ignition button or using the kickstart lever.

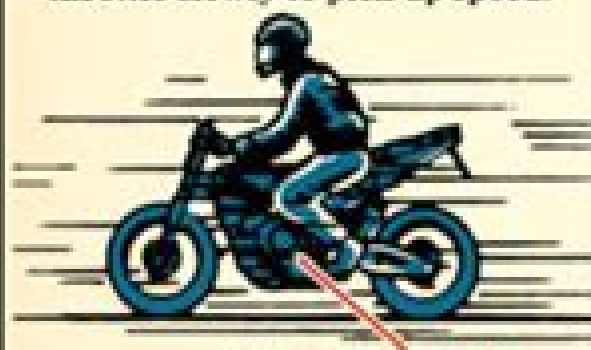

2. Squeeze in the clutch lever and press down on the gear shift lever to reach 1st gear.

3. Slowly release the clutch lever until you start to feel the motorcycle pull. As it pulls, twist the throttle slightly to increase the engine's RPMs.

4. Fully release the clutch as you begin to move and increase the throttle slowly to pick up speed.

If the motorcycle dies, return to neutral and start again, releasing the clutch slower this time.

5. Shift to higher gears by pulling up on the gear shift with your foot. To shift down, push the gear shift down. Neutral is located halfway between 1st and 2nd gears—press lightly up from 1st gear or lightly down from 2nd.

6. Bring yourself to a stop by using the front and rear brakes in tandem.
