**European Drug Policies** Renaud Colson, Henri Bergeron, 2017-01-27 The drug control regime established by the international community has not succeeded in curbing either the demand for or the offer of narcotics But despite a series of developments in the Americas including the legalisation of cannabis in Uruguay and in several states in the United States of America there is still little support in Europe for repealing drug prohibition laws Nevertheless a gradual policy convergence reveals the emergence of a European model favouring public health strategies over a strictly penal approach to combatting drugs while growing transnational support for legalisation indicates the persistence of an alternative paradigm for drug policy This book examines the various influences on drug policies in Europe as grassroots movements NGO networks private foundations and academic research centres increasingly confront the prevailing discourses of drug prohibition Pursuing an interdisciplinary approach and bringing together legal scholars social scientists and practitioners it provides a comprehensive and critical assessment of drug policy reform in Europe

**The Reduction of Drug-Related Harm** E. C. Buning, E. Drucker, A. Matthews, R. Newcombe, P. A. O'Hare, 2013-10-08

The War on Drugs has traditionally had total abstinence as its target. The contributors to this book take a new and challenging approach to problem drug use, arguing that abstinence is not the only solution. They believe that existing methods of treatment and control have been inadequate in controlling or improving drug problems and they propose a radical alternative: reducing the harm associated with the use of illicit drugs. International in scope, the book covers a broad range of drugs and of social and individual problems. The spread of HIV infection, which has been described as a greater threat to individual and public health than drug misuse, is also considered. The contributors give an overview of the current theories and practices that have helped to minimise the harmful effects of drugs and describe national and city level strategies towards drug problems. They also cover the drug policies of several agencies and organisations world wide including police, doctors, community groups and local authorities. Concentrating on reducing drug related harm, this is an important contribution to the debate on the future shape of drug control systems. It questions the role and function of existing drug laws and discusses how harm reduction will shape day to day work with drug users. Provocative and persuasive, it should be read by all policy makers and practitioners faced with drugs problems and will do much to help establish new strategies for dealing with drug use strategies that minimise rather than exacerbate drug related harm. **The Wicked Problems of Police Reform in Canada** Laura Huey, Lorna Ferguson, Jennifer L. Schulenberg, 2022-08-12 This book looks at police reform in Canada, arguing that no significant and sustainable reform can occur until steps are taken to answer the question of 'What exactly do we want police to do?' Adding challenge to this is that setting boundaries on what we expect the police to do requires grappling with the complex social problems we ask them to resolve. In public policy language, these are wicked problems: social or cultural issues frequently seen as intractable. Authors Huey, Ferguson and Schulenberg, all policing scholars, draw on a unique collection of data to explore these issues over 20 years of research, 2000-2021, ranging from in-depth interviews, surveys and field observations to document analysis and systematic social observation. Pooling this data generates a national level picture of changes in the policing operational environment over these decades. This book focuses on four particular wicked problems: mental health, substance misuse, homelessness, missing persons, with causes and potential preventative treatments that lie primarily outside the criminal justice system and yet continue to be treated as policing problems. Bringing about changes in public policing requires changes in public policy, and these are precisely the types of wicked problems that need innovative policy solutions. This book is suitable for a wide range of audiences, within and outside Canada, including law enforcement and community leaders, scholars and policy experts who specialize in policing, students of criminal justice organizations and management, and citizen consumers of information about policing.
