Les Miroirs De Frankenstein:

À travers les miroirs de la vérité Jade Hort,2024-04-29 La vie de Jodye n'est pas un long fleuve tranquille comme en témoigne la perte d'émotion de sa principale source d'amour. Plongée dans la solitude, elle se trouve désormais un carrefour où se mènent de nouvelles relations, une douleur profonde et des difficultés troubles. Dans cette tourmente, Jodye se retrouve confrontée à un choix crucial pour servir son indépendance contre ce que cela ouvre à risque de devenir malgré elle un pion dans une querelle de pouvoir dont elle ignore encore les tenants et les aboutissants.

Le Livre des préfaces Gérard Klein,2021-10-20 Ce recueil n'est donc ni une histoire de la Science Fiction internationale ni un dictionnaire ordonné mais le reflet de mes réflexions sur quelques décennies propos des auteurs que j'ai eu l'honneur de publier et sur leur relations du domaine de la SF avec le reste de la culture. Je souhaite donc qu'on le lise dans l'ordre de sa présentation mais je n'interdis personne d'y aller au gré. Cet ouvrage hors norme rassemble pour la première fois l'ensemble des préfaces de Gérard Klein des romans de Science Fiction publiés au Livre de Poche. On découvre au fil des pages une vision passionnante analytique et riche de ce genre littéraire en France mais aussi à travers le monde par l'un de ses plus fervents défenseurs et acteurs. Un ouvrage indispensable pour tous les amateurs de Science Fiction et pour tous les curieux qui souhaitent découvrir sa richesse, sa puissance, sa diversité et son importance dans la littérature et la société contemporaines.

Textes réunis par Ellen Herzfeld et Dominique Martel Revue des deux mondes, 1882 **Dead or Alive!** Maria Fabricius Hansen, Gundhild Ravn Borggreen, Rosanna Tindbæk, 2020-02-18 The image is an ontological paradox: it is made of dead matter yet appears to be alive. For millennia, artists have created images of the living world: images that are static and yet possess the power to bring to life a frozen moment in time. While this tension has constituted a fundamental challenge for as long as theories on the nature of images have existed, recent scholarship has rekindled interest in the question of what images do to us. Despite the rational discourse of Modernity, we must acknowledge that we view images as half-living entities. This book addresses the perpetual relevance of images' enigmatic life-likeness through studies that engage with a variety of visual material by asking the same question: what qualifies animation? Covering a wide range of image practices such as early paleolithic stone engravings, medieval tomb sculpture, Renaissance death masks, and Baroque painting to modern fashion park design, early cinema, and BioArt, the twelve chapters written by scholars of art history and visual culture demonstrate that the ontological paradox of the image is not limited to a specific historical period or certain types of images but can be seen throughout the history of images across different cultures.
