a. From the Apple () menu, select **Control Panels** → **Extensions Manager**.

b. From the list that appears, clear the check box next to the **File Exchange** control panel.

c. Click **Restart**.

As the computer restarts, a message appears saying the **drive is unreadable** and asks you to initialize the drive.

For further information on your drive's capacity, see the description titled "My computer shows less drive capacity than on the drive box label" in section 4.

2. Enter a name for the drive in the **Name** field.

3. Select **Mac OS Extended** from the **Format** menu and click **Initialize**.
