**Passage A: A Disappointing Return!**

I had been imagining this return trip down the narrow track to Soche Hill for many years. Some trips mean so much to us that we rehearse them obsessively in our head, in delicious anticipation. It was a homecoming more important to me than going back to Medford where I had grown up.

Instead of driving straight to the school I stopped at the nearby town of Limbe, which began abruptly, the edge of the town slummy, with the outdoor businesses – bicycle menders, car repairers, coffin-makers; the rest of it chaotic, litter and mobs, small businesses and bars and dubious-looking clinics. The town was much fuller – larger and meaner-looking. In a fine, chilly and drifting mist, I drove out of Limbe by a familiar route; uphill through a forest that had once been much larger, past a village that had once been much smaller, on a paved road that had once been just a muddy track. My hopes were raised by this narrow but good back road that ascended to the lower slopes of Soche Hill, for I assumed that this improved road indicated that the school too had been improved.

But I was wrong. The school was almost unrecognisable. What had been a set of school buildings in a large grove of trees was a semi-derelect compound of battered buildings in a muddy, open field. The trees had been cut down, the grass was chest high. At first glance the place was so poorly maintained as to seem abandoned: broken windows, doors ajar, mildewed walls, gashes in the roofs, and just a few people standing around, empty-handed, doing nothing but gaping at me.

I walked to the house I had once lived in. The now-battered building had once lain behind hedges and blossoming shrubs, but the shrubbery was gone, replaced by a small scrappy garden of withered maize. Tall elephant grass had almost overwhelmed the garden and now pressed against the house. The building was scorched and patched. Firewood had been thrown in a higgledy-piggledy stack outside the kitchen.

More rain-stained mildewed walls and sagging roofs, more broken windows and cracked verandas up the road, at the other teachers' houses. The drizzle was coming down hard now, but the rain and the mud and the dripping trees and the green slime on the brick walls were appropriate to the melancholy I felt.

I met two teachers standing in the wet road, chatting together. They introduced themselves as Anne Holt and Jackson Yekha – new teachers here.

'Ever heard of the Roseveares?' I asked. 'They actually started the school. They lived over there.'

**The EU and Member State Building** Soeren Keil, Zeynep Arkan, 2014-12-05 This book critically examines the process of statebuilding by the EU focusing on its attempts to build Member States in the Western Balkan region This book analyses the European Union's policies towards and the impact they have upon the states of the Western Balkans and assesses how these affect the nature of EU foreign policy To this end it focuses on the tools and mechanisms that the EU employs in its enlargement policy and examines the new instruments of direct intervention in Bosnia and Kosovo political coercion in the case of Croatia and Serbia in relation to the International Criminal Tribunal for the former Yugoslavia and stricter conditionality in the Western Balkan countries The book discusses the key aim of this special form of statebuilding which is to establish functional liberal democratic states in Albania Bosnia and Herzegovina Croatia Kosovo Macedonia Montenegro and Serbia in order for them to join the EU and to cope with the responsibilities and pressures of membership in the future However the authors argue that while the EU sees itself as an international actor that promotes and protects liberal democratic values norms and principles its experiences in the Western Balkans demonstrate how the EU's actions in the region have undermined the basic principles of democratic decision making such as the European support for impositions in Bosnia and international law Kosovo and have consequently contributed to new tensions see police reform in Bosnia and the tensions between Kosovo and Serbia and dependencies This book will be of much interest to students of statebuilding EU politics global governance and IR Security Studies in general

**Dangerous Allies** Malcolm Fraser, Cain Roberts, 2016-04-12 Australia has always been reliant on great and powerful friends for its sense of national security and for direction on its foreign policy first on the British Empire and now on the United States Australia has actively pursued a policy of strategic dependence believing that making a grand bargain with a powerful ally was the best policy to ensure its security and prosperity *Dangerous Allies* examines Australia's history of strategic dependence and questions the continuation of this position It argues that international circumstances in the world and in the Western Pacific especially now make such a policy highly questionable Since the fall of the Soviet Union the United States has also changed dramatically making it less relevant to Australia and a less appropriate ally on which Australia should rely Malcolm Fraser argues that Australia should adopt a much greater degree of independence in foreign policy and that we should no longer merely follow other nations into wars of no direct interest to Australia or Australia's security He argues for an end to strategic dependence and for the timely establishment of a truly independent Australia

*Reappraising the Seicento* Andrew Cheetham, Joseph Knowles, Jonathan Wainwright, 2014-03-26 *Reappraising the Seicento* presents new perspectives on some relatively well researched areas of music history and adumbrates some more arcane aspects of the period offered by fledgling scholars and early career researchers in the field of musicology The scope of the title has the potential to warrant a tome on the subject but it is not the intention to provide a comprehensive survey of music in the seventeenth century Instead five essays are presented divided

into two sections which represent the research activities of young scholars with an interest in the seicento In the first part of this book compositional procedure in seicento Italy is examined through two different analytical procedures Musical styles and fashions changed considerably throughout Europe in the seventeenth century at the forefront of these changes were Italian composers and performers who found fame and influence in their native countries as well as abroad In the second part of this book the dissemination of Italian music in seventeenth century England and the appropriation and assimilation of contemporary Italian compositional techniques by English composers are considered The phenomenal interest shown in Italian music by English patrons and musicians of the seventeenth century is placed into context and is revealed to be part of a larger historical trend
