**Critical Pedagogy and Teacher Education in the Neoliberal Era** Susan L. Groenke, J. Amos Hatch, 2009-07-30 Susan L Groenke and J Amos Hatch It does not feel safe to be critical in university based teacher education programs right now especially if you are junior faculty In the neoliberal era critical teacher education research gets less and less funding and professors can be denied tenure or lose their jobs for speaking out against the status quo Also we know that the pedagogies critical teacher educators espouse can get beginning K 12 teachers fired or shuffled around especially if their students test scores are low This paired with the resistance many of the future teachers who come through our programs predominantly White middle class and happy with the current state of affairs show toward critical pedagogy makes it seem a whole lot easier less risky even smart not to do critical pedagogy at all Why bother We believe this book shows we have lots of reasons to bother with critical pedagogy in teacher education as current educational policies and the neoliberal discourses that vie for the identities of our own local contexts increasingly do not have education for the public good in mind This book shows teacher educators taking risks seeking out what political theorist James Scott has called the small openings for resistance in the contexts that mark teacher education in the early twenty first century

Bergsmo, Carsten Stahn, 2018-09-06 Parental Choice? P. L. Thomas, 2010-07-01 Education has rarely been absent from local and national public discourse Throughout the history of modern education spanning more than a century we have as a culture lamented the failures of public schooling often making such claims based on assumptions instead of any nuanced consideration of the many influences on teaching and learning in any child s life notably the socioeconomic status of a student s family School reform then has also been a frequent topic in political discourse and public debate Since the mid twentieth century a rising call for market forces to replace government run schooling has pushed to the front of those debates Since A Nation at Risk in the early 1980s and the implementation of No Child Left Behind at the turn of the twenty first century a subtle shift has occurred in the traditional support of public education fueled by the misconception that private schools out perform public schools along with a naive faith in competition and the promise of the free market Political and ideological claims that all parents deserve school choice has proven to be a compelling slogan This book unmasks calls for parental and school choice with a postformal and critical view of both the traditional bureaucratic public school system and the current patterns found the body of research on all aspects of school choice and private schooling The examination of the status quo and market based calls for school reform will serve well all stakeholders in public education as they seek to evaluate the quality of schools today and form positions on how best to reform schools for the empowerment of free people in a democratic society **CLAT UG Exam Preparation Book | 1800+ Solved Questions (8 Full-length Mock Tests + 10**
