**Enigmas of Health and Disease** Alfredo Morabia, 2014-06-24 This book is the principal account of epidemiology's role in the development of effective measures to identify prevent and treat diseases Throughout history epidemiologists have challenged conventional knowledge elucidating mysteries of causality and paving the way for remedies From the outbreak of the bubonic plague cholera and cancer to the search for an effective treatment of AIDS and the origins of Alzheimer's disease epidemiological thought has been crucial in shaping our understanding of population health issues Alfredo Morabia's lucid retelling sheds new light on the historical triumphs of epidemiological research and allows for contemporary readers patients and nontechnical audiences to make sense of the immense amount of health information disseminated by the media By drawing from both historical and contemporary sources Morabia provides the reader with the tools to differentiate health beliefs from health knowledge The book covers important topics including the H1N1 swine flu epidemic breast cancer the effects of aspirin and the link between cigarettes and lung cancer

**Hitler Redux** Mikael Nilsson, 2020-09-15 After Hitler's death several posthumous books were published which purported to be the verbatim words of the Nazi leader two of the most important of these documents were Hitler's Table Talk and The Testament of Adolf Hitler This ground breaking book provides the first in depth analysis and critical study of Hitler's so called table talks and their history provenance translation reception and usage Based on research in public and private archives in four countries the book shows when why where how by and for whom the table talks were written how reliable the texts are and how historians should approach and use them It reveals the crucial role of the mysterious Swiss Nazi Francois Genoud as well as some very poor judgement from several famous historians in giving these dubious sources more credibility than they deserved The book sets the record straight regarding the nature of these volumes as historical sources proving inter alia The Testament to be a clever forgery and aims to establish a new consensus on their meaning and impact on historical research into Hitler and the Third Reich This path breaking historical investigation will be of considerable interest to all researchers and historians of the Nazi era

**Hitler as Political Artist** Peter G. Clark, 2022-10-06 What Hitler was able to do to a crowd in 2 1 2 hours will never be repeated in 10 000 years Ernst Hanfstaengl Hitler's early confidant Hitler was one of the first great rock stars He was no politician he was a great media artist How he worked his audience The world will never see anything like that again He made an entire country a stage show David Bowie British rock legend As a young man in Vienna Adolf Hitler was sleeping on park benches in 1909 just a real Nowhere Man making all his Nowhere Plans and who would soon haunt homeless shelters while trying to hawk his unimaginative and banal paintings Yet in 1933 this mommy's boy and self centered dilettante was appointed Chancellor of Germany after discovering his artistic political calling as a charismatic orator and stage actor in the 1920s and then dazzled Germans and foreigners alike with the color and pageantry of the Nuremberg

rallies and other grand spectacles in the 1930s As a virtuoso in the art of presenting dramatic performances Hitler inspired the same type of emotional ecstasy that the Beatles the Rolling Stones and Elvis Presley aroused from their frenzied fans Even after clearly revealing the monstrous side of his murderous character in World War II by exterminating Jews and Slavs by the millions before committing suicide on April 30 1945 he still emerged from the ashes and rubble of the Third Reich to seduce later generations To the present generation he has morphed from a murderous villain into a comical figure on many Internet platforms particularly the hundreds of humorous YouTube parodies of his fanatical ranting and raving This book examines Hitler s extraordinary political artistic talents to explain his nearly unfathomable rise from a homeless nobody into the most influential and demonic creature on the vast stage of modern history *Hitler and His Generals*

Helmut,2012-05-18 The only complete edition in any language of all the known stenographic conferences These are the first verbatim records in history of military planning at the highest level **Nine Quarters of Jerusalem** Matthew

M. Glantz,2013-10-18 Of more than a million pages of Hitler s military conferences that were recorded about 1 000 survived destruction This book contains newly discovered documents never before published **Pax Romana** Benoît

**Unriddling the Exeter Riddles** Patrick J. Murphy, 2011-03-28 The vibrant and enigmatic Exeter Riddles ca 960 980 are among the most compelling texts in the field of medieval studies in part because they lack textually supplied solutions Indeed these ninety five Old English riddles have become so popular that they have even been featured on posters for the London Underground and have inspired a sculpture in downtown Exeter Modern scholars have responded enthusiastically to the challenge of solving the Riddles but have generally examined them individually Few have considered the collection as a whole or in a broader context In this book Patrick Murphy takes an innovative approach arguing that in order to understand the Riddles more fully we must step back from the individual puzzles and consider the group in light of the textual and oral traditions from which they emerged He offers fresh insights into the nature of the Exeter Riddles complexity their intellectual foundations and their lively use of metaphor
