the Chevrolet Nova was considered a budget option a model engineered primarily for the price conscious customer Certainly
performance models were already in Chevrolet s fold With the Camaro the Corvette and the Chevelle leading the way why
would Chevy need another performance model Well savvy Chevy customers knew that you could get a really tricked out Nova
right from the factory with SS packages and big block 396 engines along with performance transmissions and gearing for a
fair amount less than an equally equipped Camaro As a bonus Novas were lighter weight too It was the performance bargain
of the Chevy lineup Fast forward to today The first generation Camaros cost a small fortune and while Novas have held their
value quite well they are still a performance bargain compared to the other Chevy performance models of the era Not only
are they more affordable than Camaros but you can do a whole lot to make them really fast In Chevy Nova 1968 1974 How to
Build and Modify veteran author and Chevy expert Wayne Scraba shows you all you need to know to build a killer street or
