Poetic Inquiry and Arts-Based Research for the Maintenance of the Republic and What Comes After Angelo J.

Letizia, 2023-12-19 This book demonstrates the power of poetry and the ways in which academics can utilize poetry to go beyond the scholarly realm and create works of art which unlike traditional academic works problematize and question reality rather than simply describe it Through its disciplinary scholarly and personal construction poetry holds the potential to erase what we know and build a new world The purpose of this book is to show how professors and students who write poetry can be emboldened to imagine new forms of government and political arrangements promote social change and challenges to power structures and detail radical ways of living with each other more generally Conceiving of the republic as a democratic republic or representative democracy the author calls attention to the idea of poetry as evidence based which despite the absence of verifiable data nonetheless gives structure to ideas and experiences filtered through human cognition imagination and senses Grounded in theory arts based research and poetic inquiry and supplemented with practical class assignments pedagogical strategies and reflective items this volume will appeal to faculty scholars and postgraduate students working across research methods arts based research and practice and language and linguistics **Katya John**
