counselling *Case Formulation for Personality Disorders* Ueli Kramer, 2019-01-22 *Case Formulation for Personality Disorders* provides clinical guidance on how to build effective treatment plans for patients presenting with personality disorders. Anchored within a disorder specific approach, the present volume reviews the evidence base of case formulation methodology. The book takes an integrative and differentiated approach to case formulation with multiple methods of case formulation all specifically adapted to the psychotherapy of personality disorders, illustrated with many case examples. Provides individualized assessment and measurement in practice. Uses 18 case formulation methods for treating personality disorders. Identifies evidence based effective treatment. Includes real life case examples. *Individual Case Formulation* Richard S. Hallam, 2013-01-10 *Individual Case Formulation* presents formulation as a process that can be taught systematically to trainee therapists. The book begins by discussing assorted theories of case formulation and critiques their ability to be applied in real world situations. The individual case formulation approach is then defined and discussed as a way to integrate the best of what different theoretical orientations have to offer in conjunction with the expertise and clinical judgment of the therapist. The book proposes a systemic functional framework that focuses on difficulties as defined by the client and emphasizes constructive solutions to problems rather than symptom reduction. Moving from theory to application, the book then guides therapists in how to conduct assessment interviews, how to reach a provisional formulation, how to test that formulation for accuracy and reformulate if necessary, how a therapist can make explicit what their clinical reasoning was in making the case formulation, and provides case examples and transcripts so readers will better grasp the concepts in action. Intended both for the starting or trainee therapist and the experienced clinician, *Individual Case Formulation* provides a practical guide for those looking to improve their case formulation skills. Reviews critiques and compares multiple theories on formulation. Identifies benefits of utilizing the individual case approach. Guides trainee therapists how to conduct assessment interviews and reach a provisional formulation. Presents a conceptual framework for developing and testing a formulation. Helps trainees make explicit their clinical reasoning. Field tested for several decades. Provides case examples with annotated transcripts to illustrate the process of formulation. *Case Formulation in Cognitive Behaviour Therapy* Nicholas Tarrier, Judith Johnson, 2006-10-16 Case formulation is the core skill of every practitioner carrying out psychological therapies at an advanced level. It is essential in providing an idiosyncratic understanding of the individual client and their clinical problems. In this volume, Nicholas Tarrier brings together contributions that cover many of the clinical issues that will challenge practitioners in their practice of cognitive behaviour therapy. Each chapter serves as a practical guide to overcoming that particular clinical challenge and is grounded solidly in research evidence. Experts in each individual field discuss how case formulation aids clinical practice in their chosen area and demonstrate how detailed understanding of the clinical case leads to improved therapeutic outcome. Subjects covered include a biopsychosocial and evolutionary approach to formulation with a special focus on shame case conceptualisation in complex PTSD, cognitive behavioural case formulation in

complex eating disorders This indispensable guide to formulating clinical cases will be welcomed by clinical psychologists psychiatrists psychiatric nurses counsellors social workers and students
