Redclift, David Manuel Navarrete, Mark Pelling, 2011 The challenge presented by climate change is by its nature global The populations of the Mexican Caribbean the focus of this book are faced by everyday decisions not unlike those in the urban North The difference is that for the people of the Mexican Caribbean evidence of the effects of climate change including hurricanes is very familiar to them This important study documents the choices and risks of people who are powerless to change the economic development model which is itself forcing climate change The book examines the Mexican Caribbean coast and

explores the wider issues of managing climate change in vulnerable areas of the tropics It also points to the inability to integrate development thinking into climate change adaptation The authors suggest that failures in local governance the transparency of state actions and the local populations lack of effective power represents a greater threat to adaptation than the absence of technical capacity in vulnerable areas Using local case studies of communities fishing villages and tourist destinations this well researched book will appeal to international students and academics working on climate change and professionals in development conservation and tourism industries

Climate Change 2014 – Impacts, Adaptation and Vulnerability: Global and Sectoral Aspects Christopher B. Field, Vicente R. Barros, 2014-12-29 This latest Fifth Assessment Report of the Intergovernmental Panel on Climate Change IPCC will again form the standard reference for all those concerned with climate change and its consequences including students researchers and policy makers in environmental science meteorology climatology biology ecology atmospheric chemistry and environmental policy

Sugarcane and Rum John Robert Gust, Jennifer P. Mathews, 2020-04-21 While the Yucatán Peninsula of Mexico may conjure up images of vacation getaways and cocktails by the sea these easy stereotypes hide a story filled with sweat and toil The story of sugarcane and rum production in the Caribbean has been told many times But few know the bittersweet story of sugar and rum in the jungles of the Yucatán Peninsula during the nineteenth century This is much more than a history of coveted commodities The unique story that unfolds in John R Gust and Jennifer P Mathews's new history *Sugarcane and Rum* is told through the lens of Maya laborers who worked under brutal conditions on small haciendas to harvest sugarcane and produce rum Gust and Mathews weave together ethnographic interviews and historical archives with archaeological evidence to bring the daily lives of Maya workers into focus They lived in a cycle of debt forced to buy all of their supplies from the company store and take loans from the hacienda owners And yet they had a certain autonomy because the owners were so dependent on their labor at harvest time We also see how the rise of cantinas and distilled alcohol in the nineteenth century affected traditional Maya culture and that the economies of Cancún and the Mérida area are predicated on the rum influenced local social systems of the past *Sugarcane and Rum* brings this bittersweet story to the present and explains how rum continues to impact the Yucatán and the people who have lived there for millennia

Chicago Tribune Index, 2006 *Fodor's 2007 Belize* Fodor's, 2006-08-01 Describes the attractions of Belize provides information on dining and lodging and offers travel tips

Decision Support Methods for Assessing Flood Risk and Vulnerability Karmaoui, Ahmed, 2019-07-19 Each year floods cause an enormous amount of global economic and social damage impacting transportation systems water supplies agriculture and health Response management to catastrophic floods require increased measures involving integrated planning adaptation and recovery strategies in order to protect against human loss *Decision Support Methods for Assessing Flood Risk and Vulnerability* is a pivotal reference source that provides vital research on the application of effective models and tools focused on the diagnosis of vulnerability to flooding risks and evaluates and measures the impact of floods on socio

economic wellbeing While highlighting topics such as hydrological events soil erosion and flood vulnerability this publication explores methods of identifying appropriate adaptation strategies This book is ideally designed for researchers students academicians policymakers government officials and technology developers seeking current empirical research findings to be used to improve the overall understanding of the flood phenomenon
