Pot Step by step guide for beginner for any new Instant Pot user If you are experiencing Instant Pot Problems you will learn  
how to fix them When I first got my Instant Pot I knew nothing about electric pressure cookers I was familiar with pressure  
cooking since I'd been using a stove top pressure cooker for years But the Instant Pot is different it has so much functionality  
and all those buttons To be honest it was a bit intimidating I had lots of questions at the beginning and I found the answers  
through trial and error or by asking questions on forums and blogs I got some great information These days the tables are  
turned and I get similar questions from new Instant Pot users Here are some Instant Pot tips and FAQs that might help you  
whether you're a brand new Instant Pot owner or if you're still getting familiar with your Instant Pot The Instant Pot has so  
many built in safety mechanisms that you don't need to worry Even if you forget to put in liquid the Instant Pot will just shut  
off and give you an error code It's very natural to feel apprehensive about using your Instant Pot for the first time If you're  
not inclined to read the manual that came with your Instant Pot I've written a couple of easy to follow guides for new users It  
will get you comfortable with using the Instant Pot for the first time It shows you the basics and will walk you through the  
water test which is the first thing you should do Recent Instant Pot users seem to be getting the Burn message more  
frequently If you're using an online recipe it may have been made in an older 6 quart Instant Pot Because of design changes  
your Instant Pot may not work exactly the same way Here are two steps you can take Add any tomato product and or starchy  
ingredients rice pasta etc at the end and DON'T stir Just push down with a large spoon or spatula to submerge in liquid  
Increase the quantity of liquid called for in the recipe If your ring cannot be rotated around the sealing ring rack it's not  
properly seated You should be able to turn it in place with a bit of effort If your sealing ring hasn't been installed correctly  
you may find that steam is leaking out of the sides of the lid According to the Instant Pot manual the Instant Pot requires at  
least 1 cup of liquid I've used as little as 1/2 cup and done fine with many recipes Some liquids like canned tomato sauce are  
too dense and require thinning out with broth or water When you cook foods like pasta or other messy foods the anti block  
shield and the float valve can get dirty and be obstructed Are you seeing an Instant Pot burn message It's a common problem  
that many Instant Pot users come across Find out why you're getting the Instant Pot burn error message how to avoid the  
problem in the future and how to recover from a burn error and salvage your meal THERE ARE SO MANY DIFFERENT  
TERMS USED IN INSTANT POT RECIPES NPR QR NPR 10 IP WHAT DO THEY MEAN With the Instant Pot 10 minutes  
pressure cooking time is not just 10 minutes it can be 20 to 30 minutes The time that you enter on the Instant Pot control
