The Making of a Market Juliette Levy, 2012-01-01

During the nineteenth century Yucatán moved effectively from its colonial past into modernity transforming from a cattle ranching and subsistence farming economy to a booming export oriented agricultural economy Yucatán and its economy grew in response to increasing demand from the United States for henequen the local cordage fiber This henequen boom has often been seen as another regional and historical example of overdependence on foreign markets and extortionary local elites In *The Making of a Market* Juliette Levy argues instead that local social and economic dynamics are the root of the region's development She shows how credit markets contributed to the boom before banks and bank crises existed and how people borrowed before the creation of institutions designed specifically to lend As the intermediaries in this lending process notaries became unwitting catalysts of Yucatán's capitalist transformation By focusing attention on the notaries role in structuring the mortgage market rather than on formal institutions such as banks this study challenges the easy compartmentalization of local and global relationships and of economic and social relationships Fateful Lightning Allen C. Guelzo, 2012-05-11 *Fateful Lightning* is a mid length survey of the American Civil War In this revision of his 1994 *The Crisis of the American Republic* leading Civil War scholar Allen C Guelzo covers a broad range of topics including politics religion gender race diplomacy and technology Unlike other
