

MINOLTA

MD 16mm f2.8 Fisheye Disassembly Tutorial

Easy disassembly method for lens cleaning (mold removal)

Difficulty: ★★☆☆☆

Things to prepare

- JIS cross-point precision screwdriver
- Spanner wrench. The one shown here is a homemade tool
- Kitchen rubber gloves
- Blower or compressed air
- Lens cleaning paper
- Lens cleaning liquid (lens cleaner)

These tutorials originally appeared on a now-defunct Japanese website. A German website dedicated to the Minolta manual focus system had copied the pages and kept them online after the original Japanese site closed up, but the tutorials were written in Japanese.

We've translated them into English and are posting them on the Learn Camera Repair website so that they'll be available to English-speaking users, and to keep them available if the German site ever goes dark. You can see the original Japanese versions on the Minolta SR Site: <http://minolta.eazypix.de/index.html>

The 16mm fisheye compared to a Minolta standard lens

Minolta Lens Repair Manual
