First Look At Communication Theory 8th Edition:

A First Look at Communication Theory Emory A. Griffin, 2012 *A First Look at Communication Theory* Emory A. Griffin, Andrew Ledbetter, Glenn Grayson Sparks, 2019 A Balanced Approach to Theory Selection We've written A First Look for students who have no background in communication theory. It's designed for undergraduates enrolled in an entry-level course regardless of the student's classification. The trend in the field is to offer students a broad introduction to theory relatively early in their program. But if a department chooses to offer its first theory course on the junior or senior level, the course will still be the student's first comprehensive look at theory, so the book will meet them where they are.

A First Look at Communication Theory Em Griffin, Emory A. Griffin, 2008-03-18 Explores the communication theories at different levels. This book includes 33 theories to strike a balance of scientific and interpretive approaches.

A First Look at Communication Theory Emory A. Griffin, 2006 Praised for its clear prose and straightforward presentation, A First Look at Communication Theory uses a one-theory-per-chapter approach and makes extensive use of examples to help make the theory come alive for students.

Communication Theory Karsten Pedersen, 2025-03-28 Communication Theory provides a theoretically informed exploration of diverse communication theories. It serves as a meta-discussion on the description and characterization of communication from various theoretical standpoints. The book also examines how different theoretical perspectives approach communication and how these approaches can be both conflicting and complementary. The book illustrates the concept of human communication by demonstrating that despite different theoretical lenses, all human communication shares fundamental characteristics. This underscores the importance of employing multiple perspectives to emphasize various aspects of communication in order to describe different facets of the communication process.

Communication Today Nyak Mutia Ismail, Athik Hidayatul Ummah, Rizky Hafiz Chaniago, 2022-02-17 Cross-sectional studies on communication have been widely conducted by researchers from various fields. Besides the pros and cons, also downplay our propositions. Hence, the essence of communication in various fields should meet in depth understanding. This later encourages researchers in social science to study and even to test the beliefs that have been assumed to become evidence. It is vital to configure our perspectives in examining the links between various fields of communication as communication plays roles on professional and personal successes of people as numerous studies have shown. This book sheds light on how communication research is conducted in different research areas such as digital communication and digital marketing, language and identity, communication on journalism, communication in news and mass media, pedagogical communication, political communication, ethics and communication, tourism and communication, and women and communication. It is expected that this book can provide insightful perspectives for its readers.

Conservation, Preservation, and Recreation at Glacier National Park Maureen Wieland, 2023-10-30 This book navigates the complicated tensions involved in effectively communicating the National Park Service's mission to both conserve and preserve nature.

while also offering recreational experiences to the public Maureen Wieland utilizes first hand qualitative research conducted in Glacier National Park in Montana one of America s most highly visited parks to weave together historical interview and observational data from both visitors and employees of the park to build a collaborative understanding of the park s environmental status and mission Through discussion of climate change policy change and environmental education at Glacier National Park Wieland explores the complicated nature of the National Park Service as an organization and how national parks will evolve in the future Scholars of communication environmental studies and public relations will find this book of particular interest
